this book constitutes the revised selected papers of the second international conference on digital transformation in achieving sustainable development of management economic and applied sciences dtsmea 2024 held in baghdad iraq during may 4 5 2024 the 42 full papers included in this book were carefully reviewed and selected from 141 submissions the papers included in this book were organized in topical sections on accounting finance and economic sustainability banking digital transformation and

financial technology and economic development sustainability and technological innovation

current interest in research of solidification of melts is focussed to understand crystal nucleation and crystal growth they determine the solidified product with its physical properties a detailed description of these processes lead to the development and validation of physical models which may form the basis of quantitative modelling of solidification routes in e g casting and foundry processes in order to develop a predictive capability in the design of materials during solidification this book based on a symposium held at euromat 2003 aims to gives an overview on current developments in the research of solidification and crystallisation of liquids the materials of interest range from metals and their alloys over semiconductors and isolators to organic substances

this book provides a thorough and up to date account of what is state of the art in the field of contracts relating to selected financial services such as insurance loans and payments services it also explores the resolution of disputes arising out of such contracts by adr bodies in europe at national and eu level in parallel with offering a comparative survey of the most recent legal developments in europe the book sheds light on the significance of financial ombudsman bodies for the efficient resolving of consumer disputes further the book illustrates solutions and policies aimed at ensuring a high level of consumer financial education

a social reality including social pathology is constantly being constructed anew in the process of confrontation of perspectives and definitions of individuals institutions and social groups therefore what interests the authors of the book more than the disputes on the right definition is the understanding of social pathology phenomena their causes mechanisms and social costs complex and multidimensional as it is social reality is best described from various perspectives for that reason a potentially interesting and fruitful interdisciplinary approach characterises the book it contains mainly texts of psychologists who work at the jagiellonian university in cracow the articles of sociologists lawyers and one theoretician of education broaden the horizon and thus contribute new insights to the entirety of the book the body of articles predominantly relates to polish reality as well as stems from the experience of the polish society in the period of political transformation no less interesting are the articles on the pathology of political discourse community policing problems in france and issues of social concern victims of violence problems of the elderly and collective behaviour the volume is of interest for social scientists and professionals as well as for students

as environmental social governance esg increasingly shapes the academic discourse in the european union solveig gasche provides a conceptual analysis of responsible trading in raw materials because the governance concept of responsible trading considers human rights and environmental standards she defines the decisive

determinants of trade in raw materials by considering the main historic economic and regulative approaches illustrating and analysing the international and the german approach to implementing good guidance strategies and governance she further deals with the issues of conflict minerals and compliance supply chain due diligence corporate social responsibility and business ethics corporate liability is given particular emphasis taking into account options of contract design transparency and reporting as well as aspects of due diligence

this book is a comprehensive compilation of academic papers and presentations delivered at the conference it brings together research from various disciplines within the humanities and social sciences such as cultural studies sociology psychology education literature and history it meticulously covers several critical areas of study reflecting the diverse and interdisciplinary nature of the conference in the realm of post pandemic economic development it explores strategies for economic recovery and resilience highlighting the role of finance and social capital in rebuilding economies technology and sustainable cities are examined through case studies and theoretical frameworks that discuss smart city initiatives technological integration and sustainability practices the section on economic development accountability and finance risk delves into methods for ensuring transparency and managing financial uncertainties in a globalized economy social and environmental policies and planning are addressed with a focus on creating equitable and sustainable communities this text will be valuable to academics researchers and students in the fields of humanities and social sciences the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4.0 license

in the next two decades startups will be key drivers of india s economic growth and job creation they have already created over 1.3 million jobs and are expected to continue generating more opportunities startups will provide significant employment for skilled individuals and young graduates in india many startups fail because of poorly identified problems inappropriate business solutions lack of scalability underdeveloped business models poor profitability and insufficient knowledge of business management functions to ensure the success of startups this book will serve as a comprehensive guide for business students and entrepreneurs on starting managing and scaling up their businesses the book will also be useful for the students who come from other disciplines like engineering and technology and aspire to start their own ventures the book providing a comprehensive understanding of startups and unicorns including strategies for transforming startups into unicorns moves on to identifying the core problems and discovering effective business solutions to address them finally it offers in depth practical knowledge of various business functions including strategy operations finance marketing sales and distribution the book will prove to be a handholding guide for its readers and will offer mentorship and support to aspiring
