revised edition of operations and process management nigel slack et al

volume one of the handbooks of management accounting research sets the context for both handbooks with three chapters

outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings the bulk of the first volume then draws together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives the volume includes a chapter which looks at work informed by psychology as a base discipline the volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting special pricing available if purchased as a set with volume 2 documents the scholarly management accounting literature publishing both in print and online through science direct international in scope

knowledge management focuses on identifying sharing storing and exploiting internal knowledge whereas open innovation is more concerned with sources of external knowledge however this simple dichotomy between open and closed approaches is unhelpful and not realistic instead it is the interaction between internal and external knowledge that creates dynamic capabilities and the ability to innovate in particular we need to better understand the interactions between internal and external knowledge and how these influence innovation outcomes under different conditions this edited volume managing knowledge absorptive capacity and innovation provides an opportunity to combine contemporary interests in open innovation with the classic notion of absorptive capacity to better understand how organisations can manage the absorption and exploitation of inbound external sources of knowledge in order to innovate

everyone manages processes everyone is an operations manager integrates services and manufacturing operations further than has been done before in any operations management textbook this makes the book ideally suited for an mba audience who

come from a multitude of organizational settings par ahlstrom professor of operations management chalmers university of technology this text places operations management clearly in context i particularly like the emphasis on process management as a means of demonstrating the ubiquity of processes even outside the traditional operations areas dr alison smart manchester business school university of manchester this comprehensive text shows how persuasive relevant and exciting operations management is to business and everyday life stephen disney cardiff business school written by best selling authors in their field operations and process management inspires a critical and applied mastery of the core principles and processes fundamental to managing business operations approaching the subject from a truly managerial perspective this brand new text provides clear and concise coverage whilst the accompanying cd provides an opportunity to practice and further explore the concepts and techniques introduced a diagnostic approach equips you with the questions to effectively assess and improve the operations and processes in your company cases in the main text provide an insight into the reality of managing operations interactive cases provide the opportunity to work through the decision making process to solve operations problems a balance of service and manufacturing examples equips you with a practical and wide ranging understanding of the material an interactive study guide featuring video animated diagrams excel spreadsheets and further examples provides practical guidance on core concepts and issues ideal for students taking any practically orientated mba executive mba or executive course in operations and process management
