about the author prof radhavallabh tripathi is known for his original contributions to literature as well as for his studies on nāṭyaśāstra and sāhityaśāstra he has published 162 books 227 research papers and critical essays he has received 35 national and international awards and honours for his literary contributions about the book vāda meaning debates dialogues discussions was the quintessential of indian spirit enabling and promoting the growth of different philosophical and knowledge systems of india it percolated deep into our mindset and enriched the moral ethical religious and sociocultural edifice of anything that was essentially indian in nature as continuation of Ānvikṣikī from the bc era vāda helped thrive indian traditional knowledge systems it subsists on diversity and its tradition envisages pluralism most of our sanskrit works covering a wide gamut of knowledge systems are structured in the techniques of debate this reality applies not only to the philosophical writings but to indian medical systems ayurveda arthaśāstra of kauṭilya and kāmasūtra of vātsyāyana as well even great epics like rāmāyaṇa and mahābhārata are no exceptions vāda culture involved verbal duals attacks and even violence of speech and all major religious systems old or modern were

parties to it this book also elucidates how vāda was vital and critical for the growth of our socio political fabrics it shows how some of the major conflicts in philosophical systems were centred around karma jñāna choice between violence and non violence pravṛtti and nivṛtti it also presents the manifestations of vāda on a vast canvas during the nineteenth and twentieth centuries modern spiritual and religious gurus like ramana maharshi j krishnamurti and vinoba bhave were men of dialogues our scholars have applied the varied techniques of vāda against the philosophical and scientific systems of the west to prove them correct this collector's issue should enthral a wide audience of philosophers scholars and believers in indian knowledge systems

drawing on the underrepresentation of the global south in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within global southern epistemologies in english language teaching elt and teaching english to speakers of other languages tesol chapters consider the epistemological landscapes of these fields their dedication to english teaching and english related topics and the intersection of the colonality of language and the supremacy of english worldwide the book explores the type of discussion that is needed to advance a more nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of elt and tesol in doing so chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the global north and further exploring ways of decolonizing language practices teaching approaches and research cultures calling for greater visibility and recognition of southern ways of knowing within elt and tesol practice and research the book will be an essential reading for scholars researchers and students of tesol elt applied linguistics and multilingualism

we live in a learning society more and more research is being done on how people learn this practical book looks at current theories of learning how they have developed and demonstrates how these can be put into practice education and learning are separate things learning is a human phenomenon essential to growth and development occurring throughout life with or without a teacher the authors begin with a broad examination of the social changes that have made learning such a central concept in contemporary society and discuss the definition of learning the current theoretical approaches to learning are then presented in clear understandable terms with an in depth discussion of the strengths and weaknesses of each approach the book ends with an introduction to the literature and forms of adult learning and suggestions on how each type can be used in either an educational or human resource developmental setting

unique in the way it links five major career development and choice theories to a fictional case client this user friendly text is ideal for counselors engaged in helping clients make wise career choices thoroughly updated the third edition of career theory and practice takes a multicultural approach as it blends theory practical examples and specific cases helping readers apply a wide range of career development theories to counseling clients

this book makes an important contribution to contemporary debates over the place of civic participation in democratic theory and practice drawing on a detailed case study of the blackbird leys area of oxford the book employs a novel empirical approach to ask whether widespread participation in civic life can enhance the prospects for democracy given the low levels of participation which tend to exist in deprived areas throughout it

presents an account of participation rooted in the history and development of the case in order to avoid the kinds of abstraction which are characteristic of many existing studies in the area the book will appeal to scholars working on democratic theory in applied settings and will be of interest to anyone concerned with inequalities in civic participation

theory has been used widely in the field of second language writing second language writing specialists teachers researchers and administrators have yet to have an open and sustained conversation about what theory is how it works and more important how to practice theory practicing theory in second language writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field

includes official department conducted by superintendent of public instruction
