this volume is designed to bridge a gap in the current theoretical debate about the nature scope and relevance of postmodern perspectives in the humanist and social sciences in eastern and western europe while the debate has been reasonably comprehensive and certainly abrasive in western european and anglophone countries it has signally failed to incorporate the viewpoints of eastern european scholars and intellectuals even the current appropriation of mikhaïl bakhtin as a prophet of the postmodern is

paradoxically a monologic engagement with his thought rather than a dialogic encounter of cultures doubtless different historical experiences ideology and social aspirations go some way to account for the weariness of eastern europe with postmodern challenge and its glad embrace by western scholars the volume comprises some fifteen essays by leading historians literary theorists and social scientists from western and eastern europe and america it has a threefold aim firstly to illuminate the distinctiveness of current western and eastern european theorizing about history and society secondly to reveal points of tension and disagreement and finally to open up a space for a meeting of seemingly incompatible worlds

the author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably friedrich nietzsche michel foucault jacques derrida francois lyotard and richard rorty he concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system annotation copyrighted by book news inc portland or

this wide ranging and provocative study traces gertrude stein s production of avant garde texts that radically disrupted traditional notions of how fiction should be defined valued and read the book combines feminist and postmodern perspectives to illuminate new facets of stein s novels and to situate them within an expanded definition of the postmodern the author argues that if we fail to consider the contexts within which postmodern innovations occur and if we subsume all formal disruptions under a generalized postmodern mode we obscure important differences among authors and distort the notion of the postmodern itself the study expands our understanding of stein as a novelist and a narrative theorist repositions her work within a revised notion of literary history and thus clarifies points of relation and divergence between modernism and postmodernism it also assists in the historicizing of the postmodern literary emergence by insisting on the centrality of gender as a category of analysis finally it argues for the importance of constructing definitions of postmodernism that will allow space to

the book begins with an overview of globalization showing how wealth and power are concentrated in the hands of a transnational elite while ever increasing numbers of people are being marginalised institutions such as the world trade organisation and the international monetary fund are intent upon exercising a new hegemony over individuals as the role of the traditional nation state is transformed at the centre of this power shift is a group of high tech robber barons who dominate the information age and exploit the technologies of globalization for their own narrow interests the second part of the book explores the rise of the new grass roots oppositional movements around the world manifest in such diverse struggles as the uprising of the zapatistas in mexico and the battle of seattle against the world trade organisation this new postmodern politics is de centred and has little interest in the old
