when the vietnam war punctured the myth of american military invincibility hollywood needed a new kind of war movie the familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years how hollywood helped create and instill the american myth of heroic continuity and how films revised that myth after the vietnam war is what armando josé prats explores in hollywood's imperial wars the book offers a new way of understanding the cultural and historical significance of vietnam in relation to hollywood's earlier representations of americans at war from the mythic heroism of a film like sands of iwo jima to the rupture of that myth in films such as the deer hunter apocalypse now and platoon as early as the mid 1940s prats suggests fears aroused by the cold war were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period in this context prats considers the immeasurable cultural importance of john wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in world war ii prats reveals how historical and cultural anxieties emerge in well known vietnam movies in which characters inspired by the heroes of the second world war are denied the heroic legacy of their fathers american war movies in prats's analysis were forever altered by the loss in vietnam even movies like american sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old hollywood war movies as by the tragic turn of actual historical events tracing what prats calls the anxiety of legacy through the films of the world war ii and post vietnam war periods this book offers a new way of looking at both the

hollywood war movie and the profound cultural shifts it reflects and refracts

some warriors are drawn to the thrill of combat and find it the defining moment of their lives others fall victim to fear exhaustion impaired reasoning and despair this was certainly true for twentieth century american ground troops whether embracing or being demoralized by war these men risked their lives for causes larger than themselves with no promise of safe return this book is the first to synthesize the wartime experiences of american combat soldiers from the doughboys of world war i to the grunts of vietnam focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry peter kindsvatter gets inside the minds of american soldiers to reveal what motivated them to serve and how they were turned into soldiers he recreates the physical and emotional aspects of war to tell how fighting men dealt with danger and hardship and he explores the roles of comradeship leadership and the sustaining beliefs in cause and country he also illuminates soldiers attitudes toward the enemy toward the rear echelon and toward the home front and he tells why some broke down under fire while others excelled here are the first tastes of battle as when a green recruit reported that for the first time i realized that the people over the ridge wanted to kill me while another was befuddled by the unfamiliar sound of bullets whizzing overhead here are soldiers struggling to cope with war s stress by seeking solace from local women or simply smoking cigarettes and here are tales of combat avoidance and fraggings not unique to vietnam of soldiers in korea disgruntled over home front indifference and of the unique experiences of african american soldiers in the jim crow army by
