in a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics

in his 1989 book *Fast Capitalism* Ben Agger presented a framework for understanding late 20th century social problems speeding up fast capitalism a sequel to his earlier book assesses social changes since the end of the 1980s brought about by information technologies like the internet which have quickened the pace of everyday life in speeding up fast capitalism Agger assesses the impact of the internet on consciousness communication culture and community and evaluates the prospects of democratic social change where the earlier book was largely theoretical speeding up applies critical theory to specific topics such as internet culture work families childhood schooling food the body and fitness although indebted to fast capitalism the sequel appeals to an audience wider than theorists including empirical sociologists social scientists and scholars in cultural disciplines

this edited volume highlights the work of ten forgotten and neglected social theorists in the hope of reinvigorating interest in their work and their potential contributions to the analysis of contemporary social issues each chapter includes a brief biographical sketch an overview of the selected theorist s work and significance and the relevance of their work to one or more contemporary social issues while other similar texts tend to focus primarily on intellectual biography our emphasis here is on the scholar s theories and their application to contemporary social issues we provide a contextualization of each scholar s work using present day social issues or problems many of these individuals played a significant role in the development of sociology our hope is to provide a resource that will help re integrate these

marginalized social theorists rescuing them from obscurity and elevating their status

takes a diverse look at the development of globalization this work contains an introduction by harry f dahms it also includes five chapters and two commentaries from some of the most respected personalities in the field

a cultural study of the flint community's response to its own deindustrialization within the framework of the state national and international forces that produced it

people overshare when they interact with others through the screens of computers and smartphones oversharing means to divulge more of their inner feelings opinions and sexuality than they would in person or even over the phone text messaging facebooking tweeting camming blogging online dating and internet porn are vehicles of this oversharing which blurs the boundary between public and private life this book examines these presentations of self acknowledging that we are now much more public about what used to be private the book concludes with reflections on the impact of oversharing on identity friendship sexuality family and democracy and suggests steps people can take to re-establish the boundary between public and personal life

third edition includes updates pertaining to the arab spring social media and the global financial crisis as well as other matters

public sociology 2nd edition offers a fundamental enriching of method far beyond the scope of research methodology textbooks it looks at sociology as a social act as writing in arguing for a public sociology that can more fully embrace and address crucial public issues building on the philosophy of science and recent postmodernist critiques agger shows how the social science text reproduces the existing social world suppressing science's author in order to position itself as simply a mirror of nature not a deliberate human version replete with ontology theory values and politics as such method is an argument that polemicalizes quietly for a certain view of the world agger peruses how science could be crafted differently acknowledging even embracing its authoriality while opening it to crosscurrents of other humanistic writing only by liberating sociology from the secret writing of science can its ineradicable humanity be realized but rather than dwelling on recent critiques this more than any other book looks ahead to a new way of doing science one that is simultaneously more scientific and humanistic its prescient view of how social science can take the lead in building a more democratic public sphere will make it a must read for every student and researcher

bibliografie p 220 233 met reg examination of the disappearance of writers of challenging intelligent books for the general reading public the author traces this to a particular organization of literary production and consumption in advanced capitalism and the kinds of constraints faced by those who write either in popular culture or in the academic world that is the requirements of writing for tenure or writing for profit in order to make a living

body problems addresses the relationship between the body and society in a fast food culture agger focuses on issues of food exercise work dieting and eating disorders fashion bariatric and cosmetic surgery and health he addresses a growing fundamental dilemma that we have ample access to abundant calories yet lead lifestyles and have jobs that for the most part do not enable us to expend those calories he proposes solutions both individual and structural that involve re-orienting ourselves to exercise as play this second edition has been updated to include a new chapter on food capitalism and a concluding passage arguing cartesian dualism can be resolved by exercising vegans in ways that would thwart this food capitalism and give people immense control over their bodies health and well being the book is ideal for courses in introductory sociology social problems work sociology of sport and leisure gender and health and illness

the virtual self is an engaging and exciting text that addresses issues relating to our rapidly changing society social structure and communication needs in doing so it addresses major issues in sociology that inform virtually all of a student's course work introduces students to concepts of the self and society in an age of rapid technology and high speed communication examines the relationship between everyday life and social structure in key domains of communication personality work family leisure and entertainment and economics written in a lively engaging style for readers without a sociological background

dialogue with what farr calls recent liberation philosophies such as feminism and african american philosophy all of these forms of philosophy are driven by a democratic impulse whereby we realize that there are many social groups that have been excluded from the democratic decision making process book jacket

the internet cell phones and other technologies have changed the ways in which people conduct their family lives raise children and navigate the blurry boundary between work and home private life is colonized by employers teachers corporations family time is taken up by work homework and shopping what it means to be parents and children has changed dramatically this book shows how the nurturance of family has increasingly become a willful radical idea in an era of pervasive technology the authors analyze important trends including the acceleration and attenuation of childhood and offer a children's bill of rights and accompanying parental responsibilities
