commercial entities who develop essay scoring software have been very active machine
scoring of student essays is the first volume to seriously consider the educational
mechanisms and consequences of this trend and it offers important discussions from some
of the leading scholars in writing assessment reading and evaluating student writing is a
time consuming process yet it is a vital part of both student placement and coursework at

validity or adequacy since the education software companies are moving so rapidly into
what they perceive as a promising new market a wider discussion of machine scoring is vital
