this book proposes a new paradigm for english language teaching based on concepts from english for specific purposes esp research and applications as well as from growing evidence relating pattern recognition to language learning ability the contributors to the volume argue that learners should not try to become proficient all around users of idealistic native like english but instead should be realistic about what they need to acquire and how to go about achieving their specific goals the

book discusses the present situation by describing the status quo of english language education in japan taking into consideration recent trends of clil content and language integrated learning emi english medium instruction and tblt task based language teaching as well as the work done on the common european framework of reference for languages cefr it introduces new movements in esp in japan and in other asian regions covering topics ranging from genre analysis to corpus linguistics and presents application examples of esp practice in a range of educational situations in japan from the graduate school level to elementary and middle school contexts it also offers readers application examples of esp practice in a range of business settings and expands the discussion to the global sphere where eap and esp are gaining importance as the number of elf english as a lingua franca speakers continue to increase the book will be of great interest to academics researchers and post graduate students working in the fields of efl and esl

does social science matter yes why does social science matter it provides humans with knowledge in form of research and theory that allows us to understand our surroundings and how the social realm works in addition to the theoretical and empirical understanding of the social realm social science allows us to anticipate and shape aspects of future social developments and outcomes e g demography and human security and social unrests or actions and potential reactions between and among individuals state actors and non state actors and their implication on the social realm thus social science matters due to its canon of knowledge which empowers humans with tools to not just understand the social realm but also mediate in social dynamics and suggest policy reforms humans keen on the social science develop practical skills distinctly valued in all forms of social dynamics for instance individuals can understand their social surroundings assess decisions they attempt to make and such which political leadership conducts on their behalf without our knowledge in social science our understanding of the social realm is less complete and our objectivity is less robust this book provides a platform for readers scholars and for practitioners to learn about present trends and debates in social sciences und conduct creative and fresh interdisciplinary research to discuss common encounters and brainstorm innovative solutions this book includes twelve chapters which are divided into four sections related to the disciplines of international relations politics history and law the chapters are written with different depth and quality they demonstrate the validity which the social science can stimulate our understanding and anticipation of our world

this book focuses on the nexus of language disciplinary content and knowledge communication against the background of the economic cultural and ideological forces

of higher education's current push for internationalisation it suggests the need for a greater synergy between language and content experts and argues that change needs to be implemented through policy rather than on an ad hoc basis by individual teachers it is a call to action for English for academic purposes practitioners to find a way out of the silo of their own centres and work to assert influence over the wider context in which they work the book begins and ends in the practice of teaching with a focus throughout on understanding the barriers and enablers to that practice within a particular context

addressing the security solutions for LTE a cellular technology from third generation partnership project 3GPP this book shows how LTE security substantially extends GSM and 3G security it also encompasses the architectural aspects known as SAE to give a comprehensive resource on the topic although the security for SAE LTE evolved from the security for GSM and 3G due to different architectural and business requirements of fourth generation systems the SAE LTE security architecture is substantially different from its predecessors this book presents in detail the security mechanisms employed to meet these requirements whilst the industry standards inform how to implement systems they do not provide readers with the underlying principles behind security specifications LTE security fills this gap by providing first hand information from 3GPP insiders who explain the rationale for design decisions key features provides a concise guide to the 3GPP LTE security standardization specifications authors are leading experts who participated in decisively shaping SAE LTE security in the relevant standardization body 3GPP shows how GSM and 3G security was enhanced and extended to meet the requirements of fourth generation systems gives the rationale behind the standards specifications enabling readers to have a broader understanding of the context of these specifications explains why LTE security solutions are designed as they are and how theoretical security mechanisms can be put to practical use

user identification and authentication are absolutely essential to modern security mechanics of user identification and authentication presents the general philosophy of user authentication and access control introducing key concepts this text outlines the process of controlled access to resources through authentication authorization and accounting it provides specific information on the user authentication process for both UNIX and Windows addressing more advanced applications and services the author presents common security models such as GSSAPI and discusses authentication architecture each method is presented with a specific authentication scenario

this collection contains 47 papers presented at Robotics 2000 fourth international conference and exposition demonstration on robotics for challenging situations and

environments held in albuquerque new mexico february 27 march 2 2000

in this work the author uses the visual approach to cover the new features of acrobat pdf 5 including tighter web integration and easier data exchange in adobe pdf files through support for the extensible markup language xml support for industry standard protocols like open data base connectivity odbc that connect adobe portable document format pdf forms with back end databases and easier data exchange in adobe pdf files

human trafficking and smuggling of migrants four of the 12 illicit flows reviewed in this report involve human beings the first two concern movement between the countries of the region one for general labour and one for sexual exploitation the third concerns the smuggling of migrants from the region to the rich countries of the west and the last focuses on migrants smuggled through the region from the poor and conflicted countries of south and southwest asia drug trafficking the production and use of opiates has a long history in the region but the main opiate problem in the 21st century involves the more refined form of the drug heroin in addition methamphetamine has been a threat in parts of east asia for decades in the form of yaba tablets but crystal methamphetamine has recently grown greatly in popularity virtually every country in the region has some crystal methamphetamine users and some populations consume at very high levels resources resource related crimes include those related to both extractive industries such as the illegal harvesting of wildlife and timber and other crimes that have a negative impact on the environment such as the dumping of e waste and the trade in ozone depleting substances in all cases the threat goes beyond borders jeopardizing the global environmental heritage these are therefore crimes of inherent international significance though they are frequently dealt with lightly under local legislation counterfeit goods the trade in counterfeit goods is often perceived as a soft form of crime but can have dangerous consequences for public health and safety fraudulent medicines in particular pose a threat to public health and their use can foster the growth of treatment resistant pathogens
