grounded in theory and best practices research this practical text provides teachers with 40 strategies for using fiction and non fiction trade books to teach in five key content areas language arts and reading social studies mathematics science and the arts each strategy provides everything a teacher needs to get started a classroom example that models the strategy a research based rationale relevant content standards suggested books reader response questions and prompts assessment ideas examples of how to adapt the strategy for different grade levels k 2 3 5 and 6 8 and ideas for differentiating instruction for english language learners and struggling students throughout the book student work samples and classroom vignettes bring the content to life

based on interactive elements that apply to every reading situation the authors explain instructional strategies that work best in the subject areas and how to optimize those classrooms for reading writing and discussion

the 3rd edition of literacy learning in the content areas helps readers build the knowledge motivation tools and confidence they need as they integrate literacy into their middle and high school content area classrooms its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms rather than passively learning about strategies for incorporating content area literacy activities readers get hands on experience in such techniques as mapping webbing anticipation guides booktalks class websites and journal writing and reflection readers also learn how to integrate children s and young adult literature primary sources biographies essays poetry and online content communities and websites into their classrooms each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students content area learning author sharon kane demonstrates how relevant reading writing speaking listening and visual learning activities can improve learning in content area subjects and at the same time help

readers meet national content knowledge standards and benchmarks

provides techniques lessons plans and ready to use assignments to help integrate the traits of good writing into all areas of the curriculum

provides techniques lessons plans and ready to use assignments to help integrate the traits of good writing into all areas of the curriculum

provides techniques lessons plans and ready to use assignments to help integrate the traits of good writing into all areas of the curriculum

utilizing a balanced approach to holistic learning and strategic learning this innovative text includes case studies from all content areas to paint an exciting picture of the power of language based teaching to enhance learners motivation a significant strength of this text is the way the authors use actual teachers real teaching scenarios appear on nearly every page to demonstrate how effective literacy and learning strategies have been implemented in junior and senior high school classrooms with more emphasis on technology updated research on students with special needs and expanded coverage on content area literacy this refreshing text shows future teachers how to transform uninspired students into active learners

the fourth edition builds on past strengths and adds new ones student centered culturally diverse students evidence based standards written by renowned authors donna alvermann and steven phelps the fourth edition includes more emphasis and information on addressing the literacy needs of english language learners and culturally diverse students a new focus on evidence based practices and standards and key information on newer frameworks for reading and writing instruction such as the sociocultural new literacies framework that equips students to teach content area literacy from a student centered approach what continues to make this book a best seller increased discussion of english language learners new evidence based research icons highlighting current research new standards icons from various subject areas help pre service teachers make the connection on how content area literacy instruction helps them meet the standards in their disciplines new writing icons throughout the chapters point to writing examples thoroughly revised chapter 7 reading to learn new information for all of the content areas in every chapter is represented in the examples lessons vignettes and scenarios making it easier for students enrolled from different discipline areas to locate content specific relevant examples ringing endorsements for content area reading and literacy fourth edition chapter 14 teaching for diversity this is an excellent chapter that certification students and other graduate students can use to understand more about the types of diversity categories that are present in instructional settings this textbook is excellent for students laverne f hutchison university of houston central campus there are many strengths in this text i particularly like the way it is laid out i believe that helping the students to see the importance of content literacy from the very beginning is extremely important immediately following this topic the students then move directly into diversity which includes the understanding the meaning of language and culture both of these topics form the basis for the rest of the course overall i believe that this book is an excellent text for teaching in the content area randy m wood baylor university the strengths of this text include the authors in depth knowledge of the field of content area reading their chapter on assessing textbooks is invaluable for secondary teachers who don t understand the difficulty of some textbooks and the problems these texts can cause students the chapter on multiculturalism and the esl learner is a strength the chapter on vocabulary is outstanding patricia j pollifrone gannon university please visit the book specific website at ablongman.com/alvermann4e to learn more

divided into four sections text includes more than 500 activities which are planned to meet the development levels interests and abilities of children in grades k to 3 who are emergent readers in the beginning literacy program

for readers to show how to apply reading methodology to subject area learning covers comprehension critical thinking and study skills

by the time an elementary or secondary school student has finished a course much of what he has learned may already be outdated clearly learning of facts cannot be the main goal of formal education students must be prepared to understand key concepts and know how to acquire further knowledge on their own this practical guide book for elementary and secondary school teachers is founded on two

basic premises 1 students need to be taught how to learn and 2 too few teachers know how to guide their students learning to develop content and process at the same time many practice assumptive teaching giving assignments without adequate guidance and assuming students know how to learn the material assigned teaching reading in content areas is a guide to teachers of basic school subjects english social studies mathematics science who wish to teach learning skills along with subject matter at the same time it offers ways to modify suggested procedures the book is deliberately designed to give teachers the experiences they are encouraged to give their students to show them how to do what they are asked to do technical vocabulary is explained at beginnings of chapters study guide materials accompanying chapters are like those to be used in content areas ample illustrative lesson materials accompany explanations procedures have been tested in the classroom by experienced teachers and specific guides to each of the basic subject areas english social studies mathematics and science are given a separate bibliography appears at the end of the book

this book examines nearly 30 years of research to identify how teachers can incorporate writing instruction that helps students master the course content and improve their overall achievement building on the recommendations of the national commission on writing authors vicki urquhart and monette mciver introduce four critical issues teachers should address when they include writing in their content courses creating a positive environment for the feedback and guidance students need at various stages including prewriting drafting revising and editing monitoring and assessing how much students are learning through their writing choosing computer programs that best enhance the writing process strengthening their knowledge of course content and their own writing skills

this collection of essays focuses on the strategic teaching model of cognitive instruction a model which makes clear the complex thinking process that teaching is highlights the importance of the teaching learning connection and aims at enabling all types of students to become successful learners the papers consider the varied levels at which content can be learned and emphasize the choice of appropriate strategies for effective cognitive instruction the book s first part contains three papers written by the editors beau fly jones annemarie sullivan palincsar donna sederburg ogle and eileen glynn carr respectively entitled learning and thinking strategic thinking a cognitive focus and planning for strategic teaching an example these papers provide generic planning guides that may be used to sequence curriculum and instruction in various content areas for each phase of instruction part ii contains four papers 1 strategic teaching in science charles w anderson 2 strategic teaching in social studies donna alvermann 3 strategic teaching in mathematics mary montgomery lindquist and 4 strategic teaching in literature richard beach each chapter in part ii contains guidelines for planning that are adaptations of the generic guides offered in part i cb
