diagnostic essentials of psychopathology a case based approach by cheree hammond brings together dozens of fictional cases which represent a range of human experiences featuring people of different ages ethnicities genders ability levels and religions each disorder has several cases associated with it to capture the truly unique nature of working with various client intersections and half of the cases provide the correct answers or diagnosis to allow students to check their understanding of this process some cases focus on a diagnosis others with analysis and others let the student practice on their own as a way to further student reflection and learning this casebook is specifically written for disciplines that are grounded in a humanistic approach counseling social work counseling psychology the author provides a framework for using the medical model that is presented in the dsm 5

sometimes it feels as though everybody has an opinion on how you should bring up your child and no two people seem to agree on how it should be done for the best parenting with reason cuts through the masses of confusing and often contradictory advice about parenting by providing hard evidence to back up the tough decisions all parents face unlike many self help guides to parenting which are based on the opinion of one author this book is based on many findings from scientific research giving you a trustworthy evidence based guide to help see your way through parenting dilemmas written by a clinical psychologist a developmental psychologist and a doctor of family medicine the book looks at pressing questions such as what should i do when my child acts up how can i get my baby to sleep through the night and how do i begin to toilet train my child the authors who are also parents themselves debunk common myths about parenting such as the notion that a healthy baby needs to be able to breastfeed at will throughout the night or the idea that children who are adopted need specialized counselling they also cover issues such as how children might be affected by seeing violence on television how a parent s psychological health can affect their child what the scientific evidence is for and against circumcision and how divorce and adoption affect a child s development the end of each chapter gives you the bottom line a handy summary of the key points of each issue this book is ideal for new or prospective parents and paediatricians family health providers and anyone who works with children and their parents will also find the book s objective scientific approach useful in their work

research on the topic of parent beliefs or parent cognition has increased tremendously since the original publication of this volume in 1985 for this revised second edition the editors sought to reflect some of the new directions that research on parent cognition has taken by offering a greater variety of topics it gives evidence of the intellectual concerns that now engage researchers in the field and testifies to the expanding scope of their interests although a unique collection because it reflects the

diversity that exists among major researchers in the field it evinces a common theme that the ideas parents have regarding their children and themselves as parents have an impact on their actions this emphasis on parents ideas shifts the focus on sources of family influence to ideas or beliefs as determinants of family interactions the implication of this way of thinking for practitioners is that it suggests the shift to ideas and thoughts from behavior and attitudes

the economic impact of society s attempts to rehabilitate and contain psychopathically disordered individuals can be enormous understanding the nature of these disorders developing accurate and valid assessment methods and providing effective treatment and safe management cannot be underestimated including contributions from an international panel of experts from europe north america and asia this two volume set offers an in depth multidisciplinary look at key aspects of the development and etiology of psychopathic disorders current methods of intervention treatment and management and how these disorders impact decision making in civil and criminal law the most comprehensive major reference work available on psychopathy and the law the wiley international handbook on psychopathic disorders and the law 2nd edition covers the full history and conceptual development of psychopathic disorders provides unique and enlightening perspectives on the subject from some of the world s most well renowned professionals in the field looks at the etiology and pathogenesis of psychopathic disorders examines current methods for the intervention treatment and management of adhd antisocial behavior and impulsive aggression provides in depth discussions of civil and criminal law issues the wiley international handbook on psychopathic disorders and the law 2nd edition is a must have reference for practitioners and academics in clinical psychology forensic psychology psychiatry probation law law enforcement and social work

this revised and expanded edition of approaches to psychology builds on the wide appeal of the earlier editions it explains what the discipline of psychology is how it developed and how it contributes to the understanding of human behaviour and experience this book introduces students to the five major conceptual frameworks or approaches to psychology biological behaviourist cognitive psychodynamic and humanistic the methods theories and assumptions of each approach are explored so that the reader builds an understanding of psychology as it applies to human development social and abnormal behaviour book jacket

the incredible ways of parenting deals with important aspects of parenting offering creative answers for many of the most common parental dilemmas and mistakes it incorporates modern and traditional methods that serve its purpose to maintain a parent children harmony from infancy to being a toddler it includes scientific explanation and psychological understanding on the children s growth supporting their physical and emotional necessities it emphasizes to teach children to do the right thing through proper discipline which plays a crucial role of their character it further includes practical and useful key points for the parents as their children become teens it involves their behavior self esteem physical changes appearance sexuality privacy and their overall wellbeing moreover it accentuates the current social issues that every parent and guardian should be aware of such as bullying as the teens reach puberty to the point of intimacy courtship and marriage this book strengthens the family bond and teaches them to pass on a positive familial connection down to the next generation it also offers solutions on how to deal with stressful times in the best possible means and how to create a positive environment for the entire family this book is a must have for parents and future parents guardians and anyone who takes care of children especially schools and daycares this book can also be a valuable tool for those who are likely to encounter these realities and those who may have had handled their terms in the ineffective way trust me there are incredible ways of parenting you always wanted to know many call

parenting a science because it involves many variables and requires proficiency in promoting and supporting the physical emotional social and intellectual development of a child from infancy to adulthood which is not an easy undertaking and it is not easy also because each child is a different being and requires a different reaction and approach to his her development needs this book is a good step in this direction as it provides helpful tips and advice to make parenting easier i recommend it unreservedly dr luis ritto former european union ambassador and emeritus professor at ispd protocol and diplomacy brussels

in the life of a person there are probably no events outside influences or genetic characteristics even approaching the significance of the broad category of acts and actions called parent child relations these include decisions and actions and lack thereof from the first day of life and sometimes throughout the life span they include learning by example schooling disciplining coping skills behavioural practices eating habits communication skills conflict management and a plethora of other actions this book presents new research in this dynamic field

when a family is headed by two women which one is the mommy if two dads show up at the soccer game what do you tell your teammates as families evolve into new constellations the practical challenges attached to raising children are enormous there may be custody disputes public queer bashing and other forms of homophobic intolerance that the whole family is forced to endure this empathetic guide offers gay and lesbian parents some real life parenting solutions to the many obstacles they encounter through examples and interactive exercises author stephanie brill encourages parents to think their way through conflict and find ways to define and protect their family and nourish a proud and loving household there is plenty of concrete advice to help readers present their families with pride and to teach children to resist gender stereotyping the author deftly handles loaded issues such as coming out finding culturally sensitive childcare and making decisions about spirituality and family celebrations the special concerns of single parents and the complications of breaking up are addressed as well

in this book the editors hope to present you with the latest research and thinking to help you better appreciate the complex interactions that characterize human development in infancy and childhood they have placed emphasis on important contemporary issues and challenges exploring topics such as understanding development in the context of current societal and cultural influences attention is given to articles that also discuss effective practical applications the editors hope that this anthology will serve as a catalyst to help students become more effective future professionals and parents pref
