reference guide to twentieth century history with over 275 photographs

progress and barbarism is a provocative and challenging interpretation of twentieth century history combining a global sweep with an eye for detail and individual experiences

a chronological compilation of twentieth century world events in one volume from the acclaimed historian and biographer of winston s churchill the twentieth

century has been one of the most unique in human history it has seen the rise of some of humanity's most important advances to date as well as many of its most violent and terrifying wars this is a condensed version of renowned historian martin gilbert's masterful examination of the century's history offering the highlights of a three volume work that covers more than three thousand pages from the invention of aviation to the rise of the internet and from events and cataclysmic changes in europe to those in asia africa and north america martin examines art literature war religion life and death and celebration and renewal across the globe and throughout this turbulent and astonishing century

traces the history of the world from the beginning of the twentieth century to the present day with emphasis on major events and their consequences

from this major author comes a totally unique history of the twentieth century eschewing the traditional model for histories of this kind blow by blow political narratives typically overloaded with detail jeremy black offers us instead a brilliant thematic account of the last 100 years with the environment and the continuing strength of religious belief at its centre looking back to the 1910s and 1920s black begins with the greatest issue of all the natural environment and its destruction and moves to show how our world been transformed by urbanisation and development amazing developments took place across the century men walked on the moon the internet revolutionised communications advances in health and medicine developments in manufacturing and technology economic globalization all have changed the way different parts of the world related to each other how have these revolutionary changes impacted on religion and politics in the final sections of the book black looks at the persistence and growing extremism in religious belief how change creates instability and wars and how power blocs emerged and collapsed in response to all these developments this is twentieth century world history on a truly global scale the twentieth century world forces us to rethink the way we view the past and offers us a new way to understand the present

part of the making of the modern world series this innovative textbook offers an introduction to the 20th century world with a focus on human perspectives through social and cultural histories

during the twentieth century medicine has been radically transformed and powerfully transformative in 1900 western medicine was important to philanthropy and public health but it was marginal to the state the industrial economy and the welfare of most individuals it is now central to these aspects of life our prospects seem increasingly depe

the first and second world wars the great depression oil shocks inflation financial crises stock market crashes the collapse of the soviet command economy and third world disasters are discussed in this comprehensive book the contributors subject these disasters to in depth assessment carefully considering their costs and

impact on specific countries and regions as well as assessing them in a global context the book examines the legacy of economic disasters and asks whether economic disasters are avoidable or whether policymakers can learn from their mistakes

during the twentieth century medicine has been radically transformed and powerfully transformative in 1900 western medicine was important to philanthropy and public health but it was marginal to the state the industrial economy and the welfare of most individuals it is now central to these aspects of life our prospects seem increasingly dependent on the progress of bio medical sciences and genetic technologies which promise to reshape future generations the editors of medicine in the twentieth century have commissioned over forty authoritative essays written by historical specialists but intended for general audiences some concentrate on the political economy of medicine and health as it changed from period to period and varied between countries others focus on understandings of the body and a third set of essays explores transformations in some of the theatres of medicine and the changing experiences of different categories of practitioners and patients

an intellectual feast learned lucid challenging and accessible san francisco chronicle ideas crackle in this triumphant final book of tony judt taking readers on a wild ride through the ideological currents and shoals of 20th century thought los angeles times the final book of the brilliant historian and indomitable public critic tony judt thinking the twentieth century maps the issues and concerns of a turbulent age on to a life of intellectual conflict and engagement the twentieth century comes to life as an age of ideas a time when for good and for ill the thoughts of the few reigned over the lives of the many judt presents the triumphs and the failures of prominent intellectuals adeptly explaining both their ideas and the risks of their political commitments spanning an era with unprecedented clarity and insight thinking the twentieth century is a tour de force a classic engagement of modern thought by one of the century's most incisive thinkers the exceptional nature of this work is evident in its very structure a series of intimate conversations between judt and his friend and fellow historian timothy snyder grounded in the texts of the time and focused by the intensity of their vision judt's astounding eloquence and range are here on display as never before traversing the complexities of modern life with ease he and snyder revive both thoughts and thinkers guiding us through the debates that made our world as forgotten ideas are revisited and fashionable trends scrutinized the shape of a century emerges judt and snyder draw us deep into their analysis making us feel that we too are part of the conversation we become aware of the obligations of the present to the past and the force of historical perspective and moral considerations in the critique and reform of society then and now in restoring and indeed exemplifying the best of intellectual life in the twentieth century thinking the twentieth century opens pathways to a moral life for the twenty first this is a book about the past but it is also an argument for the kind of future we should strive for thinking the twentieth century is about the life of the mind and the mindful life judt's book ill fares the land republished in 2021 featuring a new preface by bestselling author of between the world and me and the water dancer ta nehisi coates

offering students a clear and stimulating approach to history this series provides a set of options from which to formulate a scheme of work

the twentieth century world is a narrative account of twentieth century world history with extensive coverage given to the us europe africa asia latin america and the middle east the book uses a distinctive analytical framework in order to examine the rivalries between major world nations the forth edition has been thoroughly updated to take the narrative all the way through the end of the twentieth century keylor has expanded the book s coverage of very recent events such as the middle east peace process nato expansion negotiations for the comprehensive nuclear test ban treaty and the war in chechnya the book includes 27 maps for ease of reference with its up to date bibliography and its clear concise style the book is perfect for undergraduate classes on twentieth century world history

explores major political and economic changes of the 20th century the world in the twentieth century 7 e discusses the major political and economic changes that have reshaped global relations the central theme of the book is that the most profound transformation of the 20th century was the emergence of nation states in place of disintegrating empires three main subjects help to interpret the forces of global change the international history of the nation states the role of ideology in shaping political and cultural movements and social values and the evolution of world economic relations this title is available in a number of formats digital and print pearson offers its titles on the devices students love through coursesmart amazon and more to learn more about pricing options and customization click the choices tab

for centuries the world has witnessed the development and use of increasingly complex and powerful military systems and technologies in the process the art of war has truly become the art of combined arms warfare in which infantry artillery air support intelligence and other key elements are all coordinated for maximum effect nowhere has this trend been more visible than in the history of twentieth century warfare originally published as an essential in house study for u s army officers during the 1980s this much revised and expanded edition remains the most complete study available on the subject rewritten with a much wider readership in mind it both retains its enormous practical utility for military professionals and provides a valuable and appealing introduction for scholars and general readers jonathan house author of the original work brings the story of combined arms up to the present covering among other things desert storm the war in chechnya and the rise of smart weapons and related technologies he traces the evolution of tactics weapons and organization in five major militaries american british german russian and french over 100 years of warfare revealing both continuities and contrasts within and between these fighting forces he also provides illuminating glimpses of israeli and japanese contributions to combined arms doctrine expanding his insightful analysis of the world wars and the wars in korea and vietnam house also offers much new material focused on the post vietnam period throughout he analyzes such issues as command and control problems of highly centralized organizations the development of special operations forces advances in weapons technology including ballistic and anti ballistic missile systems the trade offs involved in using heavy versus light armed forces and the enduring obstacles to effective cooperation between air and land forces his strong critique of the air superiority propaganda that came out of the gulf war is sure to spark some heated debates rigorously comparative house s study addresses significant questions about how nations prepare for war learn or don t learn its harsh lessons and adapt to changing times and technologies unique in the annals of the

literature on warfare it will be the standard work on this subject for a long time to come

world war i 1914 1919 and its consequences russian revolution 1917 1924 world war ii 1939 1945 war in the pacific the holocaust united nations organisation refugees cold war the blitz use of the atomic bomb

offering a dazzling overview of a turbulent century the penguin history of the twentieth century explores the dramatic events and underlying trends that made the twentieth century the most transformative in human history despite two devastating world wars and the traumatic rise and fall of communism wealth has increased significantly alongside a four fold leap in population women s lives have been transformed america has assumed undisputed political and cultural leadership and china is now clearly awaiting its moment j m robert s masterly overview now updated to the present day brings all of this and more into focus

the great themes woven through john lukacs s spirited concise history of the twentieth century are inseparable from the author s own intellectual preoccupations the fading of liberalism the rise of populism and nationalism the achievements and dangers of technology the continuing democratization of the globe and the limitations of knowledge
