in april 2005 the accounting standards board issued new accounting standards dealing with the recognition measurement and disclosure of financial instruments hedges and comprehensive income together with many consequential amendments throughout the cica handbook accounting these new standards are effective for interim and annual financial statements relating to fiscal years beginning on or after october 1 2006 earlier adoption is permitted only as of the beginning of a fiscal year ending on or after december 31 2004

in this book jayne godfrey and keryn chalmers explore the intricacies of the globalisation of accounting standards arguably one of the most significant business developments of the wider globalisation process during the past two decades they examine the key issues and implications of this harmonization of accounting standards from the perspectives of a diverse range of worldwide stakeholders globalisation of accounting standards shows that globalisation approaches differ significantly because countries seek to maintain varying degrees of sovereignty over their regulations international differences in economic political legal religious and social characteristics also affect globalisation approaches and in turn influence national accounting standard setting agendas the book explores why countries relinquish their existing national accounting standard setting regimes to join the global movement it also seeks to resolve questions such as to what extent are national incentives altruistic economic political or social who are the winners and losers in the process this authoritative book is thoroughly researched and expertly informed written by both academics and regulators it tackles a critical and controversial issue in the globalisation movement as such it will be of great interest to a wide ranging audience including international national private and public sector standard setters economic regulators accounting academics and political economists and strategists

this book first published in 1993 focuses on the evolution of accounting institutions practices and standard setting in canada canada s federal system complicates the

jurisdictional authority for accounting matters the canadian constitution empowers the ten provinces to regulate the training and certification of accountants and each can incorporate organizations a great deal of effort has been made by accounting bodies on jurisdictional coordination and disputes and this book analyses how these systems have come to function in their present form

most companies have to produce year end accounts uk gaap is an essential tool for all those involved in preparing auditing and using company accounts it explains all accounting regulations in force and illustrates them fully with extracts from the accounts of major companies as a result it is now the best selling guide to uk financial reporting on the market

discusses all aspects of gaap the theoretical background of each topic the development of each ssap detailed practical analysis and interpretation of the requirements of each ssap comparison with fasb and iasc requirements discussion of related companies act and stock exchange requirements

us public companies will have to follow international financial reporting standards as of january 1 2011 weygandt s financial accounting ifrs introduces challenging accounting concepts with examples that are familiar to the student while incorporating the new global accounting standards following the reputation for accuracy comprehensiveness and currency weygandt guides students through financial accounting and the period of transition for ifrs readiness the text prepares student for the requirements they will follow in the coming years

a useful reference guide that aides those who have international business and financial interests provides an in depth look into the international dimensions of accounting reporting and control and finance it highlights major differences in accounting principles around the world

considerable effort has been made over the last ten years by such institutions as the eu

oecd uno and the iasc towards the harmonisation of accounting standards it is recognised though that uniformity and true compatibility of financial instruments cannot be achieved while accounting operates in individual national economic and legal environments a knowledge of national accounting standards and practice continues to be indispensable for the analysis of financial statements transnational accounting is a unique comparative study of accounting standards of fourteen major economic powers plus the regimes of the iasc and eu each chapter is standardised for easy comparison and written by a recognised expert in his or her country the editor the late dieter ordelheide was professor of business economics at the johann wolfgang goethe universität frankfurt am main this groundbreaking work enables the reader to develop a thorough practical understanding of national accounting practices and be fully at home with financial statements in an international context each volume includes a detailed reference matrix listing approximately 100 key accounting subjects and their treatment across all regulatory and accounting regimes
