the sights sounds and smells of life on the streets and in the houses of eighteenth century paris rise from the pages of this marvelously anecdotal chronicle of a perpetually alluring city during one hundred years of extraordinary social and cultural change an excellent general history as well as an innovative synthesis of new research the making of revolutionary paris combines vivid portraits of individual lives accounts of social trends and analyses of significant events as it explores the evolution of parisian society during the eighteenth century and reveals the city s pivotal role in shaping the french revolution david garrioch rewrites the origins of the parisian revolution as the story of an urban metamorphosis stimulated by factors such as the spread of the enlightenment the growth of consumerism and new ideas about urban space with an eye on the broad social trends emerging during the century he focuses his narrative on such humble but fascinating aspects of daily life as traffic congestion a controversy over the renumbering of houses and the ever present dilemma of where to bury the dead he describes changes in family life and women s social status in religion in the literary imagination and in politics paris played a significant role in sparking the french revolution and in turn the revolution changed the city not only its political structures but also its social organization gender

pekacz history u of alberta discusses the establishment of the parisian salon as a distinctive form of sociability in the mid 17th

century a form through which women carried out a new role that of disseminating new values of civility and good manners she shows how paradoxically the salon limited rather than fostered women s advancement in society using as a case study the quarrels over the french and italian opera as they were expressed in the context of the salons annotation copyrighted by book news inc portland or

whatever happened to the epistolary novel why was it that by 1825 the principal narrative form of eighteenth century fiction had been replaced by the third person and often historicized models which have predominated ever since nicola watson s original and wide ranging study charts the suppression of epistolary fiction exploring the attempted radicalization of the genre by wollstonecraft and other feminists in the 1790s its rejection and parody by jane austen and maria edgeworth the increasingly discredited role played by letters in the historical novels of jane porter sydney morgan and walter scott and their troubling ghostly presence in the gothic narratives of james hogg and charles maturin the shift in narrative method is seen as a response to anxieties about the french revolution with the epistolary feminized and sentimental plot replaced by a more authoritarian third person mode as part of a wider redrawing of the relation between the individual and social consensus this is a brilliant and innovative reading of the place of the novel in the reformulation of british national identity in the napoleonic period throwing new light on writers as diverse as hazlitt charlotte smith walter scott helen maria williams and byron
