nils eikermann describes the framework conditions for the
application of value based performance measures and critically
analyses selected ones the disclosure of value based
performance indicators is important in order to demonstrate
the successful management of a company and to satisfy the
increasing information needs of investors however companies
adapt the developed theoretical concepts of value based

performance measures to their practical needs and thus investors are no longer able to compare the performance of companies in addition there is a variety of different metrics from which companies can choose the empirical study aims to reduce existing research gaps and is divided into three parts the analysis of annual reports of selected european companies the calculation of a standardised value based performance measure and a value relevance study in the form of an association study
