the contributors to assembly codes examine how media and logistics set the conditions for the circulation of information and culture they document how logistics the techniques of organizing and coordinating the movement of materials bodies and information has substantially impacted the production distribution and consumption of media at the same time physical media such as paperwork along with media technologies ranging from phone systems to software are central to the operations of logistics the contributors interrogate topics ranging from the logistics of film production and the construction of internet infrastructure to the environmental impact of the creation distribution and sale of vinyl records they also reveal how logistical technologies have generated new aesthetic and performative practices in charting the specific points of contact dependence and friction between media and logistics assembly codes demonstrates that media and logistics are co constitutive and that one cannot be understood apart from the other contributors ebony coletu kay dickinson stefano harney matthew hockenberry tung hui hu shannon mattern fred moten michael palm ned rossiter nicole starosielski liam cole young susan zieger

the cell of self knowledge presents a unique collection of seven early english mystical treatises first printed by henry pepwell in 1521 this anthology serves as a pivotal bridge between medieval spirituality and the nascent humanist thought of the renaissance rich in contemplative language and steeped in theological inquiry these works invite readers to explore self awareness and divine intimacy the treatises illuminate the intricate interplay between personal spiritual development and communal faith reflecting the broader context of english mysticism that sought to reconcile individual experience with established religious doctrine the compilation features various authors each bringing their distinct voice and theological nuance to the discourse on self knowledge and contemplation the historical backdrop of the early 16th century characterized by the tumult of the reformation and evolving notions of personal piety likely influenced these mystics quest for deeper understanding their reflections echo the internal struggles of a society on the brink of significant religious transformation emphasizing the enduring relevance of introspection in spiritual life this book is highly recommended for scholars and

enthusiasts of mysticism religious history and renaissance literature it serves not only as a resource for understanding early english spirituality but also as an invitation to engage with the profound questions of the self in relation to the divine

this is a new and revised edition of a book which has had a major impact upon the social sciences and public political debate anthony elliot and charles lemert s the new individualism inspired readers with the dramatic suggestion that the reinvention craze from self help and therapy culture to management restructurings and corporate downsizings is central to a new individualism sweeping the globe giving particular attention to the narratives of people seeking to define anew their lives in an age of globalization the authors contend that an endless hunger for instant change and relentless emphasis on self reinvention is fundamental to grasping the disorientating effects of the new individualism this edition contains a substantial new introduction in which elliot and lemert reply to some of the standard criticisms made of the theory of the new individualism and also addresses the escalation of new individualist thinking in the wake of recent global crises

in a world in which global trade is at risk where warehouses and airports shipping lanes and seaports try to guard against the likes of al qaeda and somali pirates and natural disaster can disrupt the flow of goods even our oc stuffoco has a political life the high stakes of logistics are not surprising deborah cowen reveals if we understand its genesis in war in the deadly life of logistics cowen traces the art and science of logistics over the last sixty years from the battlefield to the boardroom and back again focusing on choke points such as national borders zones of piracy blockades and cities she tracks contemporary efforts to keep goods circulating and brings to light the collective violence these efforts produce she investigates how the old military art of logistics played a critical role in the making of the global economic orderoconot simply the globalization of production but the invention of the supply chain and the reorganization of national economies into transnational systems while reshaping the world of production and distribution logistics is also actively reconfiguring global maps of security and citizenship a phenomenon cowen charts through the rise of supply chain security with its challenge to long standing notions of state sovereignty and border management though the object of corporate and governmental logistical efforts is commodity supply the deadly life of logistics demonstrates that they are deeply politicalocoand considered in the
