a new interpretation of the jesuit mission to new france is here proposed by using for comparison and contrast the earlier jesuit experience in japan in order to present revisionist perspectives of the jesuit missions based on a broader international framework beyond north america the existing historical paradigms of the jesuit missionary activity to amerindians based on the limited regional history of new france are re examined the time period of analysis covers one entire century from the mid sixteenth century to the mid seventeenth century the jesuit evangelists used in this analysis include european mainly iberian and french missionaries the non european converts dealt with in this discussion are japanese and amerindian peoples the aspects considered for revisions encompass the interpretations of foreign cultures the basic evangelistic approach of preaching winning converts and educating them organising christian communities and the non european practice of the religion the christian mission in japan has proved to be a useful tool for these purposes

despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain the catholic church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them if we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature as a matter of fact people both in the east and in the west have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them the contributors to this volume based on a symposium at the university of arizona may 2024 approach this critically important topic from many different perspectives taking us from the early middle ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses both the passage through inferno and purgatorio as the crucial pathway toward paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in christian and muslim cultures studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion these topics were also greatly important in other cultures as several papers on arabic medieval literature indicate further pursuing this global issue we recognize easily that the separation line between the middle ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today
