2023 perkins prize of the international society for the study of narrative esse book award for junior scholars for a book in the field of literatures in the english language responding to the current surge in present tense novels making time is an innovative contribution to narratological research on present tense usage in narrative fiction breaking with the tradition of conceptualizing the present tense purely as a deictic category denoting synchronicity between a narrative event and its presentation the study redefines present tense narration as a fully fledged narrative strategy whose functional potential far exceeds temporal relations between story and discourse the first part of the volume presents numerous analytical categories that systematically describe the formal structural functional and syntactic dimensions of present tense usage in narrative fiction these categories are then deployed to investigate the uses and functions of present tense narration in selected twenty first century novels including hilary mantel s wolf hall margaret atwood s oryx and crake ian mcewan s nutshell and irvine welsh s skagboys the seven case studies serve to illustrate the ubiquity of present tense narration in contemporary fiction ranging from the historical novel to the thriller and to investigate the various ways in which the present tense contributes to narrative worldmaking

library automation has advanced at such a rapid pace within the last few years that librarians who have been limited by either budget or hardware constraints are today able to automate at least some library functions even though presentations at meetings describing individual efforts have been published in the literature there has not been a comprehensive text discussing the status of integration at all levels of library management as it exists today

the integrated medical library addresses this need by presenting the results of a survey of automated systems currently used in medical libraries as a basis on which to discuss various methods for integrating these systems this includes serials cataloging circulation acquisitions internal database management systems external database search procedures and management and financial control the book emphasizes current practices and procedures and proposes methods for libraries to improve their performance and services part i defines an integrated online library system and describes the study design and analysis of results part ii describes commercially available integrated online library systems currently used by medical libraries part iii discusses the specialized integrated online library systems of the u s national library of medicine and the swedish planning and rationalization institute for the health and social services part iv describes ad hoc integrated functions currently used by medical libraries while part v discusses the various means of integration

in this conversational jargon free text with its clear and thorough presentation of theories of delinquency regoli and hewitt make delinquency interesting to read about it is no encyclopedic compendium but a critical look at a very serious problem this edition is thoroughly updated to reflect the most current trends and developments in clear and accessible language the authors prepare their readers to understand all facets of delinquency including discussions of the history institutional context and societal reactions to delinquent behavior the major biological psychological and sociological theories of behavior and the variety of policy implications derived from those theories
