Dr. Lake has made a significant contribution to integrative medicine in this book by helping to weave the integral tapestry around the complex issues of mental illness in honor of his efforts to restore healing and meaning to mental healthcare. I bow deeply from the foreword by Larry Dossey MD. Dr. James Lake once again illuminates the path to future medicine in this comprehensive, carefully researched and intellectually engaging exploration of clinical integration of complementary and conventional therapies in mental health care. In a rigorous, dispassionate analysis, he both reveals the outer frontiers of medical possibility and describes the professional boundaries necessary to reach such frontiers in ways that are clinically responsible as well as ethically unassailable. Michael H. Cohen JD MBA, Assistant Clinical Professor, Department of Medicine, Harvard Medical School, and Assistant Professor, Department of Health Policy and Management, Harvard School of Public Health. Dr. Lake has written the defining textbook for evidence-based integrative mental health care. He has comprehensively evaluated the research support for both conventional and natural therapies and redefined how we understand and treat mental health patients. His careful flow charts help guide the clinician through the challenge of assessment and differentiation to personalize therapies based on each patient's unique needs. Clinicians will also find of immense value his many tables which summarize the evidence base for each intervention. This is a tour de force that forever redefines mental health care. Joseph Pizzorno ND, Founding President, Bastyr University. This text offers an evidence-based approach to incorporating integrative psychiatry into practice that is pragmatic and useful. A great addition to the field of integrative medicine. Roberta Lee MD, Medical Director, Continuum Center for Health and Healing.
