Submitted by one of themselves The Journal of the American Forensic Association The Saturday Review of Politics, Literature, Science and Art The R & R Sales Training Course Railway News, Finance and Joint-stock Companies' Journal The Annual Charities Register and Digest PEP Broadsheet Women Across Continents U.S. News & World Report *Malcolm Torry Fabio D'Orlando Dr Paul O'Brien Jamie Swift Ugo Gentilini Robert-Jan Veen Tony Walter Guy Standing Ireland August Constantino Bolino American Forensic Association Insurance Research & Review Service Lena Dominelli*

highlighting the diversity and complexity of the global basic income debate malcolm torry assesses the history current state and future of research in this important field each chapter offers a concise history of a particular subfield of basic income research describes the current state of research in that area and makes proposals for the research required if the increasingly widespread global debate on basic income is to be constructive

the main novelty of the fourth industrial revolution is the entry of robots and artificial intelligence into the production process this phenomenon could potentially generate high levels of unemployment or even full unemployment and therefore calls for innovative public policies this

book adopts an agnostic position on the size of the future impact of technological progress on employment but proposes a thought experiment built on a full unemployment scenario which focuses on the consequences that these policies might have for people's well being with particular reference to the provision of a universal basic income ubi relying on some of the principles and models of behavioral and happiness economics it is argued that implementing a ubi that does not change over time may increase well being inequality a policy mix that combines a rising basic income with other measures is therefore recommended this book marks a significant contribution to the literature on economic policy labor economics the economics of well being and happiness and behavioral economics

this book is about a radical idea the idea that each of us deserves enough money on which to live and that it should be paid independently of our personal means and independently of whether we work or even want to work the concept of basic income has been discussed internationally and has the potential to revolutionise the way that society functions it would provide greater security for the young for the self employed and entrepreneurs as well as reshaping the social welfare system in its entirety in this book author and academic dr paul o brien explores the arguments for and against the idea and explains how this very real proposal might work in practise

inequality is up decent work is down free market fundamentalism has been exposed as a tragic failure in a job market upended by covid 19 with canadians caught in the grip of precarious labour stagnant wages a climate crisis and the steady creep of automation an ever louder chorus of voices calls for a liveable and obligation free basic income could a basic income guarantee be the way forward to democratize security and intervene where the market economy and social programs fail jamie swift and elaine power scrutinize the politics and the potential behind a radical proposal in a post pandemic world that wealth should be built by a society not individuals and that we all have an unconditional right to a fair share in these pages swift and power bring to the forefront the deeply personal stories of canadians who participated in the 2017 2019 ontario basic income pilot examine the essential literature and history behind the movement and answer basic income's critics from both the right and left

universal basic income ubi is emerging as one of the most hotly debated issues in development and social protection policy but what are the features of ubi what is it meant to achieve how do we know and what don't we know about its performance what does it take to implement it in practice drawing from global evidence literature and survey data this volume provides a framework to elucidate issues and trade offs in ubi with a view to help inform choices around its appropriateness and feasibility in different contexts specifically the book examines how ubi differs from or complements other social assistance programs in terms of objectives coverage incidence adequacy incentives effects on poverty and inequality financing political economy and implementation it also reviews past and current country experiences surveys the full range of existing policy proposals provides original results from micro tax benefit simulations and sets out a range of considerations around the analytics and practice of ubi

persisting unemployment poverty and social exclusion labour market flexibility job insecurity and higher wage inequality changing patterns of work and family life are among the factors that exert pressure on welfare states in europe this book explores the potential of an unconditional basic income without means test or work requirement to meet the challenges posed by the new social question compared to policies of subsidized insertion in work it also assesses the political chances of basic income in various european countries these themes are highly relevant to policy makers in the field of labour markets and social security economists political philosophers and a social science audience in general

this book provides a critical analysis of the feasibility and impact of a universal basic income grant for south africans which has been discussed extensively in parliament and the media for the past two years the authors assess how comprehensive social security reform including a universal grant will impact on the severe inequality in the country and promote economic growth and employment their research reveals that it is affordable and they argue that it would reduce the criminality that is associated with poverty and inequality the implications for women and children and for the black majority would be considerable at the presidential jobs summit in 1998 cosatu negotiated an agreement with the government to investigate a universal social grant for all south africans the basic income grant government policy makers civil society stakeholders and south african and international thinkers recognised the merit of addressing the problem of poverty directly and efficiently in march 2002 the south african government s committee of inquiry into comprehensive social security completed its evaluation of policy options for addressing the severe levels of poverty afflicting the country accepting the findings of research commissioned from the economic policy research institute the committee s report stated that the basic income grant has the potential more than any other possible social protection intervention to reduce poverty and promote human development and sustainable livelihoods this book provides an accessible collection of the current research on the issue with chapters by both proponents and critics of the basic income grant some of the issues discussed include how can the grant be financed in what ways will the grant promote job creation economic growth and social development and will the government demonstrate the political will to implement what is likely to be the single most effective policy for reducing poverty and eradicating destitution

this is a comparative feminist analysis of the impact of social policy on women across capitalist socialist and social democratic countries the book looks at income maintenance and family and health policies in capitalist market and socialist planned economies in britain and other countries
