this book bridges the gap between research and practice in the area of sustainable design of buildings exploring the passive climate responsive design and thermal behavior of buildings and ways to incorporate these enhancements in architectural and civil engineering practice it presents climatic data and its analysis in a readily usable form and shows ways in which such data can be used to achieve passive climate responsive and sustainable building design the book presents case studies of sustainable building in each of five climatic zones of india the book includes climatic data from 62 cities in india and describes how it can be synthesized in sustainable building design the book can serve as a practical tool or handbook for architects engineers and designers providing them with an understanding of the physical phenomena involved and a means for suitably implementing and applying passive climate responsive design principles it also offers a valuable resource for researchers students and policymakers working in the area of sustainable building design and construction

this volume is unique in examining the geographical historical and functional aspects of architecture in india looking beyond the point of view of dynasties periods or religions the book traces the various social and historical developments in the field following a multi disciplinary approach that emphasizes sociological aspects the volume examines in detail settlement patterns the architecture of individual houses andchaityas as also structural materials used for their construction in addition to those of palaces funerary monuments temples mosques and monasteries

take a journey through indian architecture from the dawn of civilization to the present with this colorful attractive survey the architecture of india reflects both the cultural diversity of the subcontinent and its rich political and historical inheritance in this guide the various strands of this rich architectural history from the dawn of civilization to modern times are beautifully presented in word and picture readers are taken on a fascinating tour of indus valley civilization early vedic traditions hindu jain mughal

regional colonial and post independence architectural styles themes such as water architecture and the architecture of science also figure prominently giving many westerners their first glimpse of these styles the informative text complemented by 400 photographs watercolors maps and plans provide compelling evidence of india s influence on building design throughout history

this path breaking book addresses several issues for the very first time and reveals many findings about indian architecture in details never researched or published before this project is the culmination of the author s entire lifetime s work the strength of the paradigm he proposed lies in the fact that it makes the reader sit up and take notice of the glaring defects in the thinking planning and implementation to how we build and utilize space for living working and sharing our environment with our co habitats he then provides solutions for an organic and symbiotic way of development that can be scaled up right from a single dwelling to as large as a whole township the author is non dogmatic and non religious in his approach and proposes radical yet simple solutions with scientific explanations and rationale behind his methods he is quick to point out that this is a book written in the modern context and even the word spirit used in the title has not been used in any spiritual sense but refers to the essence the core he has been an experimenter and a truth seeker all his life and here he shares the result of his findings with the reader who can benefit at every level the target readership of this book would be anyone from a student of architecture to an accomplished architect urban planners educationists and policy makers and indeed anyone who is interested in improving the quality of life in its finality the book a textbook as the author likes to call it is not only a unique work on architecture but on the art of living itself darshan kumar bubbar was born in 1937 in quetta balochistan since an early age he showed an incredible talent in his drawings which eventually led him to join the field of architecture before commencing his formal education at the academy of architecture mumbai he worked with eminent architects in delhi for years which served as a rigorous training ground for him he started his own practice in 1965 under the name and style of the angles architects and today the firm continues to furnish complete services in the field of design and execution

of building planning and interior projects his work has ranged from designing houses bungalows and housing complexes to educational campuses hospitals offices residential and institutional buildings and even interiors with furniture design in the early sixties he began to study indian architecture the mud houses in villages the palaces of rajasthan and the mud houses in villages the palaces of rajasthan and the taj mahal cast a deep impression on him he was in search of design principles ha the ancients followed in their work in an attempt to reach the quintessential truth that separated traditional architecture from modern architecture he began his quest and studied the manasara and scriptures he used his findings in the contemporary context on his projects with almost complete success through three decades d k bubbar has been an untiring student for the age old principles of indian architecture his thoughts and works have been published in several periodicals and newspapers he has taught at the academy of architecture mumbai conducted workshops at the school of planning and architecture delhi indian institute of technology mumbai sir jj school of architecture mumbai and many other colleges he has lectured at the university of new south wales in sydney and national university of singapore interviews with him have been telecast on several television channels

contents introduction studies in indian architecture fort architecture in ancient and medieval india art and architecture northern india art and architecture south india the aspect and orientation in hindu architecture kalinga style of architecture symbolism of the dome art and architecture muslim architecture in india a plea for indian architecture

revision of article published in the indian historical quarterly v 14 1938 under the title symbolism of the dome
