in this classic discussion about economics freedom and the relationship between the two milton and rose friedman explain how our freedom has been eroded and our prosperity undermined through the explosion of laws regulations agencies and spending in washington

and how good intentions often produce deplorable results when government is the middleman the friedmans also provide remedies for these ills they tell us what to do in order to expand our freedom and promote prosperity new foreword by the authors

profound scholarly learned carefully reasoned and though of enduring value timely forrest mcdonald author of the american presidency a provocative book that does much to save us from the hubris of intellectuals john patrick diggins author of the lost soul of american politics

international bestseller a powerful and persuasive discussion about economics freedom and the relationship between the two from today's brightest economist in this classic discussion milton and rose friedman explain how our freedom has been eroded and our affluence undermined through the explosion of laws regulations agencies and spending in washington this important analysis reveals what has gone wrong in america in the past and what is necessary for our economic health to flourish

although the last half of the twentieth century has been called the age of democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world reassessing the fate of democracy for our time distinguished political theorist ralph ketcham traces the evolution of this idea over the course of four hundred years he traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the western and east asian world since 1600 ketcham first considers the fundamental axioms established by theorists of the enlightenment bacon locke jefferson and reflected in america's founding then moves on to the mostly post darwinian critiques by bentham veblen dewey and others that produced theories of the liberal corporate state he explains late nineteenth century asian responses to democracy as the third manifestation grounded in confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups ketcham critiques the first second and

fourth modernity rationales for democracy and suggests that the asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world he advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the jeffersonian universalism that which informed the founding of the united states if democracy is to flourish in a fifth manifestation the idea of democracy in the modern era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future with its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era

lucidly written comprehensive in coverage based on expert understanding and insight noam chomsky

henderson one of the world's most vigorous advocates of free markets celebrates those in american society and around the world who are fighting to get government off their backs

historian allen j matusow now presents the first comprehensive history of nixon's political economy he depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in america the study derives its authority from extensive archival research in nixon's presidential papers including notes by haldeman and ehrlichman of crucial conversations in the oval office matusow shows the poverty of contemporary economic theory nixon's willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work lurching from one set of policies to another matusow argues nixon achieved only illusory successes that ultimately brought on a decade of economic disaster

in this book robert leeson and charles palm have assembled an amazing collection of milton friedman's best works on freedom even more amazing is that the selection represents only 1 percent of the 1 500 works by friedman that leeson and palm have put online in a

user friendly format and an even smaller percentage if you include their archive of friedman s audio and television recordings correspondence and other writings this book and the larger online collection are sorely needed and very welcome milton friedman deserves to be read in the original by generation after generation

most americans believe that local school districts are the only means by which citizens may exercise control over public education kathryn mcdermott argues to the contrary that existing local institutions are no longer sufficient for achieving either equity or democratic governance not only is local control inequitable it also fails to live up to its reputation for guaranteeing public participation and citizen influence drawing upon democratic theory and the results of field research in new haven connecticut and three suburbs mcdermott contends that our educational system can be made more democratic by centralizing control over funding while decentralizing most authority over schools to the level of schools themselves while enacting public school choice controlled for racial balance to many people in connecticut and elsewhere the tension between equal opportunity for all students and local control of public education seems impossible to resolve in 1996 the connecticut supreme court ruled in sheff v o neill that local control produces unconstitutional segregation of public schools nearly all of the state s 169 towns operate their own public schools and like the towns they serve the schools are generally homogeneous with respect to race and socioeconomic class in the sheff ruling the court declared that making school districts coterminous with town lines is the single most important factor contributing to the present concentration of racial and ethnic minorities in the hartford public school system at the same time the court also acknowledged that the town based school system presently furthers the legitimate nonracial interests of permitting considerable local control and accountability in educational matters in connecticut and elsewhere it has often seemed necessary to choose between local control and equity in public education and local control has almost always won mcdermott argues that rather than seeing local control and equity as conflicting goals policymakers should regard them as equally important components of democracy in public education in her view a truly democratic system of education should both encourage citizen participation in school governance and contribute to the formation and maintenance of a social order in which equality of opportunity prevails over hierarchies of privilege centralizing distribution of resources and using controlled choice to end racial

isolation would provide greater equality of opportunity while decentralizing management of schools would expand citizen participation mcdermott s conclusions break new ground in our understanding of local school governance itself and call into question the conventional wisdom about local participation these findings should interest those who study school governance and reform especially in an urban setting as well as policy makers administrators teachers students and citizens eager to improve their schools
