This text is the first comprehensive presentation of nursing care in the prehospital environment. The book is divided into three sections addressing the roles of prehospital practitioners, the practice of prehospital nursing before and during transport, and the challenges and future of prehospital nursing. Prehospital nursing covers collaborative care including practice, education, and research content relating to safety, the EMS system, assessment, and specific types of emergencies. It is presented with a focus on the unique role of the prehospital nurse.
