opening address stuttgart august 20 1919 14 lectures stuttgart august 21 september 5 1919 cw 293 2 lectures berlin march 15 and 17 1917 cw 66 although we can physically see children only after their birth we need to be aware that birth is also a continuation we do not want to look

only at what the human being experiences after death that is at the spiritual continuation of the physical we want to be aware that physical existence is a continuation of what higher beings have done without our assistance our form of educating can have the correct attitude only when we are aware that our work with young people is a continuation of what higher beings have done before birth rudolf steiner this course on education contains some of the most remarkable and significant lectures ever given by rudolf steiner because these lectures were given to teachers however they have suffered the misconception that they are useful only to teachers any teacher who wants to teach in a way that encompasses the whole child certainly needs a functional understanding of what steiner presents here but these lectures will also greatly benefit parents psychologists counselors or anyone else involved with child development steiner gives his most concise and detailed account of human nature in these lectures which are absolutely essential for anyone who wants a deeper understanding of steiner s spiritual science those who are willing to work through this work will discover here a new powerful convincing and profoundly phenomenological anthropology of human spiritual psychology in these lectures steiner laid out for the first time the principles that form the basis for renewing the art of teaching the foundations of human experience is the most important text for studying and understanding the human developmental and psychological basis for waldorf education read bobby matherne s review of this book translated from the german editions *allgemeine menschenkunde als grundlage der p dagogik* ga 239 appendix from *geist und stoff leben und tod* ga 66 an older translation of cw 239 was titled study of man

foundations of human resource development is a careful presentation of the basic theory and practice of human resource development hrd the book clearly frames and explains hrd in a manner that is useful for beginners and experts working definitions and core values derived from the history of hrd and its present challenges are presented

biologists and anthropologists in japan have played a crucial role in the development of primatology as a scientific discipline publication of primate origins of human cognition and behavior under the editorship of tetsuro matsuzawa reaffirms the pervasive and creative role played by the intellectual descendants of kinji imanishi and junichiro itani in the fields of behavioral ecology psychology and cognitive science matsuzawa and his colleagues humans and other primate partners explore a broad range of issues including the phylogeny of perception and cognition the origin of human speech learning and memory recognition of self others and species society and social interaction and culture with data from field and laboratory studies of more than 90 primate species and of more than 50 years of long term research the intellectual breadth represented in this volume makes it a major contribution to comparative cognitive science and to current views on the origin of the mind and behavior of

humans

human rights and the body is a response to the crisis in human rights to the very real concern that without a secure foundation for the concept of human rights their very existence is threatened while there has been consideration of the discourses of human rights and the way in which the body is written upon research in linguistics has not yet been fully brought to bear on either human rights or the body drawing on legal concepts and aspects of the law of human rights mooney aims to provide a universally defensible set of human rights and a foundation or rather a frame for them she argues that the proper frames for human rights are firstly the human body seen as an index reliant on the natural world secondly the globe and finally language these three frames generate rights to food water sleep and shelter environmental protection and a right against dehumanization this book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law

u s and globally providing insights for researchers and practitioners on how to influence and implement policies effectively

what motives underlie the ways humans interact socially are these the same for all societies are these part of our nature or influenced by our environments over the last decade research in experimental economics has emphatically falsified the textbook representation of homo economicus literally hundreds of experiments suggest that people care not only about their own material payoffs but also about such things as fairness equity and reciprocity however this research left fundamental questions unanswered are such social preferences stable components of human nature or are they modulated by economic social and cultural environments until now experimental research could not address this question because virtually all subjects had been university students and while there are cultural differences among student populations throughout the world these differences are small compared to the full range of human social and cultural environments a vast amount of ethnographic and historical research suggests that people s motives are influenced by economic social and cultural environments yet such methods can only yield circumstantial evidence about human motives combining ethnographic and experimental approaches to fill this gap this book breaks new ground in reporting the results of a large cross cultural study aimed at determining the sources of social non selfish preferences that underlie the diversity of human sociality the same experiments which provided evidence for social preferences among university students were performed in fifteen small scale societies exhibiting a wide variety of social economic and cultural conditions by experienced field researchers who had also done long term ethnographic field work in these societies the findings of these experiments demonstrated that no society in which experimental behaviour is consistent with the canonical model of self interest indeed results showed that the variation in behaviour is far greater than previously thought and that the differences between societies in market integration and the importance of cooperation explain a substantial portion of this variation which individual level economic and demographic variables could not finally the extent to which experimental play mirrors patterns of interaction found in everyday life is traced the book starts with a succinct but substantive introduction to the use of game theory as an analytical tool and its use in the social sciences for the rigorous testing of hypotheses about fundamental aspects of social behaviour outside artificially constructed laboratories the results of the fifteen case studies are summarized in a suggestive chapter about the scope of the project

five foundations of human development ffhd is a philosophical religious and practical discourse on human development based on the following five foundations spiritual moral social intellectual and physical the authors proffer that human beings possess the capacity to rise to

a higher state of civilization when we allow spiritual intelligence to underpin human intelligence as our capable guide the indomitable spirit within human beings that brought civilization out of the dark ages and into an age of enlightenment demonstrates our capacity to transcend moral hope and optimism for a better world with peaceful coexistence among individuals families and nations this book will help inform enlighten and empower individuals and leaders in such fields as engineering science religion politics the military and other great institutions to engender solutions to the myriad of unsolved problems of past centuries problems of the present and emerging problems of the future problems such as wars genocide greed and the exploitation of human beings begin within our destructive spiritual nature and manifest in the physical nature therefore solutions also lie in the spiritual realm as a counterbalance to the natural realm of human existence ffhd is a blueprint for human survival based on adherence to physical laws and spiritual laws that transcend a belief in an omnipotent all powerful omnipresent everywhere and omniscient all knowing being it will awaken the conscience to comprehend the life threatening issues that face humankind the solutions therefore cannot merely be left only to the educated elite the military forces and those in high public and private office the global significance of this book is that it informs a more communal view of our world it is the only perspective that will allow us to enter the global village prepared for the racial social cultural environmental and economic challenges that lie ahead

once largely confined to the biggest cities in the mid atlantic and great lakes states philanthropic foundations now play a significant role in nearly every state wide ranging and incisive the essays in american philanthropic foundations regional difference and change examine the origins development and accomplishments of philanthropic foundations in key cities and regions of the united states each contributor assesses foundation efforts to address social and economic inequalities and to encourage cultural and creative life in their home regions and elsewhere this fascinating and timely study of contemporary america s philanthropic foundations vividly illustrates foundations commonalities and differences as they strive to address pressing public problems
