this volume helps us understand the transformations of terrorist organisations and the conflicts they are involved in by broadening the perspective on what is considered terrorist learning using a variety of methodological approaches and empirical data the volume offers a look at the clandestine inner lives of groups from different continents and ideological backgrounds in order to explore from whom they learn and how and what the outcomes are their internal and external interactions are examined within their socio political contexts to illuminate how they adapt to challenges or fail to do so unpacking the question of how do terrorists learn helps us to grasp not only changes of violent means of action but also of operational and strategic approaches and ultimately even transformations of the ends pursued the chapters demonstrate that terrorist learning is not principally different from that of other human organisations the contributors draw on conceptual frameworks of organizational learning but also broaden the scope beyond the organizational framework to acknowledge the variety of forms of informal and decentralized learning characteristic of much contemporary terrorism this book will be of much interest to students of terrorism studies violent extremism

organisational studies and international relations

terrorist use of the internet has become a focus of media policy and scholarly attention in recent years terrorists use the internet in a variety of ways the most important being for propaganda purposes and operations related content but it is also potentially a means or target of attack this book presents revised versions of a selection of papers delivered at the nato advanced research workshop arw on terrorists use of the internet held in dublin ireland in june 2016 one aim of the workshop was to nurture dialogue between members of the academic policy and practitioner communities so the 60 delegates from 13 countries who attended the workshop included representatives from each of these the participants encompassed a wide range of expertise including engineering computer science law criminology political science international relations history and linguistics and the chapters contained herein reflect these diverse professional and disciplinary backgrounds the workshop also aimed to address the convergence of threats following an introduction which provides an overview of the various ways in which terrorists use the internet the book s remaining 25 chapters are grouped into 5 sections on cyber terrorism and critical infrastructure protection cyber enabled terrorist financing jihadi online propaganda online counterterrorism and innovative approaches and responses the book will be of interest to all those who need to maintain an awareness of the ways in which terrorists use the internet and require an insight into how the threats posed by this use can be countered
