formal methods are changing how epistemology is being studied and understood a critical introduction to formal epistemology introduces the

types of formal theories being used and explains how they are shaping the subject beginning with the basics of probability and bayesianism it shows how representing degrees of belief using probabilities informs central debates in epistemology as well as discussing induction the paradox of confirmation and the main challenges to bayesianism this comprehensive overview covers objective chance peer disagreement the concept of full belief and the traditional problems of justification and knowledge subjecting each position to a critical analysis it explains the main issues in formal epistemology and the motivations and drawbacks of each position written in an accessible language and supported study questions guides to further reading and a glossary positions are placed in an historic context to give a sense of the development of the field as the first introductory textbook on formal epistemology a critical introduction to formal epistemology is an invaluable resource for students and scholars of contemporary epistemology

an accessible focused exploration of the field of political ecology the third edition of political ecology spans this sprawling field using grounded examples and careful readings of current literature while the study of political ecology is sometimes difficult to fathom owing to its breadth and diversity this resource simplifies the discussion by reducing the field down into a few core questions and arguments these points clearly demonstrate how critical theory can make pragmatic contributions to the fields of conservation development and environmental management the latest edition of this seminal work is also more closely focused with references to recent work from around the world further political ecology raises critical questions about traditional approaches to environmental questions and problems this new edition includes international work in the field coming out of europe latin america and asia explains political ecology and its tendency to disrupt the environmental research and practice by both advancing and undermining associated fields of study contains contributions from a wide range of diverse backgrounds and expertise offers a resource that is written in highly accessible straightforward language outlines the frontiers of the field and frames climate change and the end of population growth with the framework of political ecology an excellent resource for undergraduates and academics the third edition of political ecology offers an updated edition of the guide to this diverse quickly growing field that is at the heart of how humans shape the world

and in turn are shaped by it

a systematically revised and updated new edition of a highly acclaimed text which was an immediate bestseller on courses around the world the second edition takes a broader perspective giving increased coverage of other dimensions of globalization alongside its core focus on the rise of supraterritoriality which the author argues is globalization s most distinctive feature

a critical introduction to religion in the americas argues that we cannot understand religion in the americas without understanding its marginalized communities despite frequently voiced doubts among religious studies scholars it makes the case that theology and particularly liberation theology is still useful but it must be reframed to attend to the ways in which religion is actually experienced on the ground that is a liberation theology that assumes a need to work on behalf of the poor can seem out of touch with a population experiencing huge pentecostal and charismatic growth where the focus is not on inequality or social action but on individual relationships with the divine by drawing on a combination of historical and ethnographic sources this volume provides a basic introduction to the study of religion and theology in the latino a black and latin american contexts and then shows how theology can be reframed to better speak to the concerns of both religious studies and the real people the theologians work is meant to represent informed by the dialogue partners explored throughout the text this volume presents a hemispheric approach to discussing lived religious movements while not dismissive of liberation theologies this approach is critical of their past and offers challenges to their future as well as suggestions for preventing their untimely demise it is clear that the liberation theologies of tomorrow cannot look like the liberation theologies of today

this major new text provides an accessible yet intellectually rigorous introduction to contemporary security studies it focuses on eight fundamental debates relating to international security integrating a wide range of empirical issues and theoretical approaches within its critical interrogation of these an accessible yet intellectually rigorous overview of contemporary security studies serving as the perfect introduction to the

latest research on security discourses threats and technologies

corporations dominate our societies they employ us sell to us and influence how we think and who we vote for while their economic interests dictate local national and global agendas written in clear and accessible terms this much needed textbook provides critical perspectives on all aspects of the relationship between business and society from an historical analysis of the spread of capitalism as the foundation of the corporate revolution in the late nineteenth century to the regulation ethics and exclusionary implications of business in contemporary society furthermore it examines how corporate power and capitalism might be resisted outlining a range of alternatives from the social economy through to new forms of open access or commons ownership

an overview on the modern concept of performance

the most comprehensive and critical textbook on knowledge management in an accessible concise format
