the problem of definition has a long history and has engaged the minds of some of the most eminent thinkers in the western tradition from plato and aristotle onwards but it is also an everyday problem constantly confronting all who have to draft or interpret the countless texts on which modern society depends definition in theory and practice focuses on two areas where difficulties arise in a particularly acute form lexicography and the law examining a wide range of approaches and definitional techniques backed up by detailed analyses of dictionary entries and court cases the authors provide a comprehensive survey of their subject they argue that what underlies the problem of definition are conflicting assumptions about the way language functions this in depth study of definition will be of interest to academics researching lexicography semantics and the intersection of linguistics and jurisprudence

in the immense literature on globalization the work of roland robertson stands out in particular his insistence that globalization manifests itself primarily as glocalization the simultaneity of the global and the local of homogenization and heterogenization continues to influence how a wide variety of observers understand the process including those who contest it in honour of robertson s lifetime contributions this volume brings together a set of essays that demonstrate the cogency of his approach point out directions in which it can be further developed and illustrate the insight it can provide in topics as varied as religion football wine morality and ufos contributors include peter beyer john boli didem buhari gulmez rebecca catto richard giulianotti ulf hannerz david inglis paul james habibul haque khondker anne sophie krossa frank lechner kristian naglo john h simpson manfred b steger and george m thomas

hailed for its timelessness and timeliness public administration in theory and practice examines public administration from a normative perspective and provides students with an understanding of the practice of public administration combining

historical contextual and theoretical perspectives this text give students a truly comprehensive overview of the discipline and focuses on the practical implications of public administration theory features normative perspective focuses on the practice of public administration and helps students understand what public administrators do historical contextual and theoretical perspectives provide comprehensive coverage of the subject matter a thematic overview reinforces the multiple conceptual frameworks or lens through which we see public administration students will learn to think through to practical and realistic solutions that acknowledge an historic precedence and theory emphasis on performance measures and assessments

this book offers a comprehensive overview of the major theoretical perspectives in contemporary sociology covering schools of thought or intellectual movements within the discipline as well as the work of individual scholars the author provides not only a rigorous exposition of each theory but also an examination of the scholarly reception of the approach in question considering both critical responses and defences in order to reach a balanced evaluation chapters cover the following theorists and perspectives alexander bourdieu ethnomethodology exchange theory foucault giddens goffman habermas luhmann merton network and social capital theory parsons rational choice theory schutz and phenomenism structuralism symbolic interactionism an accessible and informative treatment of the central approaches in sociology over the course of the last century this volume marks a significant contribution to sociological theory and constitutes an essential addition to library collections in the areas of the history of sociology and contemporary social theory
