concept analysis is an established genre of inquiry in nursing introduced in the 1970s currently over 100 concept studies are published annually yet the methods used within this field have rarely been questioned in concept analysis in nursing a new approach paley provides a critical analysis of the philosophical assumptions that underpin nursing s concept analysis methods he argues provocatively that there are no such things as concepts as traditionally conceived drawing on wittgenstein and construction grammar the book first makes a case for dispensing with the traditional concept of a concept and then provides two examples of a new approach examining the use of hope and moral distress casting doubt on the assumption that hope always stands for an inner state of the person the book shows that the word s function varies with the grammatical construction it appears in similarly it argues that moral distress is not the name of a mental state but a normative classification used to bolster a narrative concerning nursing s identity concept analysis in nursing is a fresh and challenging book written by a philosopher interested in nursing it will appeal to researchers and postgraduate students in the areas of nursing health philosophy and linguistics it will also interest those familiar with the author s previous book phenomenology as qualitative research

mysticism in the wide and somewhat loose sense in which the term is commonly used may be considered as the final outcome of a congenital desire for knowledge which appears in all animate

creatures in children and savages as also in the lower animals it takes the rudimentary form of sensitive curiosity in more fully developed rational natures it becomes the desire to understand the inner nature of things and finally extends itself to that obscure region dimly recognised by all men which lies beyond the sphere of things and of the senses by which things are perceived but knowledge is of two kinds abstract and concrete or experimental and theoretical aeterna press
