rahu and ketu are controversial figures in hindu mytho logy astronomy and astrology whatever may have been the liables of mythology the physics of eclipses tells us that the shadows are caused by the earth the sun and the moon and they do not exist by themselves in solar eclipse it is moon that covers thd orb of the sun and casts its shadow on the earth and causes the eclipse ln lunar eclipse it is reasonably the earth that casts the shadow on the moon and cause the eclipse but if we see the movement in both the cases it is the moon that causes the eclipse by playing hide and seek what are rahu and ketu the usual explanation given by some of the learned astrologers is that they are as much physical bodies planets as other planets are and they are invisible because their discs are dark others are of the opinion that they are points in the ecliptic where the plane of moon s orbit cuts the plane of sun s orbit rahu and ketu pose difficult problems for the astrologer and have been the cause of considerable controversy in the recent past authorities differ about them from what varahmihira observes in is his brihat somhita it is obvious that he was aware of the true causes of eclipses and other celestial phenomen it must however be stated at the very outset that there is a fundamental difference between rahu and ketu and the other planets the other planets are bodies of physical mass actually existing in the sky and visible to the eye they have form shape and colour and their mass gravity atmosphere motion distance from the sun etc have been studied in detail and ascertained on the other hand rahu and ketu are only tqre imaginary points in the heavens without shape or form they are the points of intersection of the apparent path of the sun with the path of 5 the moon as these paths are nearly circular the points of intersection are two which lie 180 degrees apart now the basic assumption of astrology is that planets in fluence the earth and its inhabitants man dwells upon the earth and so is influenced by them the planets possess mass and have force of gravity they also emit electro magnetic vibrations these effect the earth and its inhabitants rahu and ketu do not exist in the heavens and posses no mass they are only two imaginary points in the heavens then how do they effect the earth and its inhabitants it has already been stated that rahu and ketu are the two points of intersection of the path of the sun and the moon the apparent motion of the sun is due to the revolution of the earth around the sun and the moon

revolves around the earth therefore rahu and ketu are the points of intersection of the paths of the earth and the moon in the heavens the earth and the moon are two bodies possessing physical mass they move on defined paths in the heavens their movements on their paths create fields of force the nature of the force is not material it may be called electromagnetic or any other the inhabitants of the earth are not aware of the field of force created by the earth because they are a part of the earth and move along with it this fact may be explained through an example the movements of a railway train on its track creates a field of force which is noticed by a passerby and not by persons who are in an equilibrium similarly the inhabitants of the earth are in an equilibrium with reference to the field of force created by the earth during its motion around the sun the equilibrium is however disturbed where the paths of the earth and the moon intersect it is natural that where two fields of force meet with each other something unusual should happen rahu and ketu are two 6 nodes of the moon are the two points of disturbance on the paths of the earth and the moon the path of the earths or the apparent path on the sun is the ecliptic thus rahu and ketu are the two points on the ecliptic 180 degrees apart and in whose vicinity disturbed condition prevail they represent the cross roads on the fields of force of the earth and the moon but what about the influence of nodes which are imaginary points they cannot either emit rays or reflect rays emanating from the other celestial bodies so what is their position in astrology latitudes of the planets depend on their nodes so the mutual relationship in the position of the planets will not be the same at any two instants in kalpa one kalpa being equal to 1090 maha yugas and one maha yuga is of 4 32000 years as the periods of revolution of the nodes are different for different planets it is said that history repeats itself but not in a identical manner this truth is established on a consideration of astrology the events may be similar but can never be identical since the astrological influence of planets depends on their latitudes their nodes even though they are timaginary points naturally exercise astrology influence on the earth and the living beings on it the effect of rahu and ketu forces itself on our attention most clearly at the time of the eclipses of the sun and the moon when the sun and the moon come near the nodes at the time of the full moon or the new moon and a certain other conditions are fulfilled an eclipse of the moon or the sun take place then the light and other electro magnetic vibrations coming from the moon or the sun are cut off and the normal arrangements which obtains for the earth are disturbed persons who are born at the time of eclipses are always prone to mental abnormality and to other physical suffering they are also likely to have weak 7 constitutions and short lives it is known fact that during the period of eclipses and sometimes before and after them the normal functioning of the human system such as digestive apparatus etc is disturbed and that is why it is said that no food should be taken during the period of an eclipse but it is not only the sun and the moon that suffer when they come in contact with rahu or ketu other planets also develop abnormal traits when they come in contact with them and their natural qualities suffer usually for the worse when sun comes in conjunction with rahu

this gives a strong advantage to the rahu area the ego and the new activity flow along the same path whenever the sun is located is where there is strength vitality action and warmth but when sun is in conjunction with ketu this gives greater difficulty in establishing the new growth in order to grow and learn the person must build a strong ego to cut short whenever rahu is in conjunction with any planet it will enhance the basic quality of that planet it is only in recent years that rahu and ketu are recognized in western astrological texts this is surely a sign of indian influence on western astrological thought lately few astrologers of the west have written few books proving with illustration that the moon's nodes play an important part in human affairs

dear reader we always wonder that every house in vedic astrology has different meaning and results so how does the planet sitting in it will behave so in this book i am describing how mars will give results in different houses in most possible and descriptive way the planet behavior changes along with the house it sits in and give different results every house itself is a mystery and planet sitting in house becomes more mysterious and gives results in very different pattern planet is nothing but a cosmic energy which in particular location in house during our birth impacts our entire life the way we think and the way we behave and also controls our emotions the glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life pattern and day to day life and we can understand this by understanding our horoscope and by checking which house the planet is sitting and how it impacts our thinking and life i hope you will love this book and enjoy reading regards saket shah

dear reader this is one of my best presentation on rahu and ketu in houses in vedic astrology the content in this book you will not find anywhere in internet or with any astrologer in this world i am trying my best to explain 12 signs of rahu and ketu position and their nature or behavior the purpose of writing this book is not to make money but to share this secret knowledge with entire world in this book you will learn in depth details about the ascendant and their in depth studies i can guarantee after reading this book your opinion on astrology and the way you look at horoscope will completely change keep patience and read this book thoroughly and learn the method of understanding ascendant i am giving my lifetime astrology experience in this book this is not a copy paste material it took me lot of pain and hard work to write this knowledge i request everyone not to copy this content and respect my hard work because my emotions are attached with this book this book is a result of my lifetime work the way this book is written you will be amazed and mesmerized and dive deep into astrology english is not my mother tongue so if i make any grammatical mistakes then please forgive me by profession i am an it professional trader investor and an astrologer i did multiple roles in my life and i am trying my best to share this divine knowledge of jyotish astrology to the world

in vedic astrology nakshatras plays a very important role we need to understand placement of nakshatras in 12 houses of horoscope and how it impacts the results in this book i am going to describe all 27 nakshatras in 12 hours in vedic astrology each nakshatra has unique qualities and it resembles unique signification in every house i hope readers will love this book regards saket shah
