take a delightful romp back through time and see the world through the eyes of your inner child revisit the world in the years following the end of the second world war to the children of this countrys greatest generation when innocence wonder and awe were alive and well go back to the days of two pieces of candy for a penny the introduction of the hula hoop and red ryder bb guns the gift that every little boy dreamed of finding beneath the christmas tree the world of the baby boomer was a simpler place and time a time when telephone service meant that you were a part of a party line a handshake was better than a signed contract it was a time when the family sat together to eat their meals and share their dreams and accomplishments as well as their failures there was a sweetness to life during those decades this book offers the reader an intimate look into the daily lives of those who lived the wonder recall the memories of many historical events and people let the child in you free to explore and reconnect with the values and people of those magical years before the birth of computers cell phones and television your vacation back in time will be one that you will always remember be ready to laugh and cry but most of all be prepared to revisit your youth and your dreams yesterday awaits the sock monkey will be your guide

the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truthtelling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

does the universe embody beautiful ideas artists as well as scientists throughout human history have pondered this beautiful question with nobel laureate frank wilczek as your guide embark on a voyage of related discoveries from plato and pythagoras up to the present wilczek s groundbreaking work in quantum physics was inspired by his intuition to look for a deeper order of beauty in nature in fact every major advance in his career came from this intuition to assume that the universe embodies beautiful forms forms whose hallmarks are symmetry harmony balance proportion and economy there are other meanings of beauty but this is the deep logic of the universe and it is no accident that it is also at the heart of what we find aesthetically pleasing and inspiring wilczek is hardly alone among great scientists in charting his course using beauty as his compass as he reveals in a beautiful question this has been the heart of scientific pursuit from pythagoras the ancient greek who was the first to argue that all things are number to galileo newton maxwell einstein and into the deep waters of twentiethcentury physics though the ancients weren t right about everything their ardent belief in the music of the spheres has proved true down to the quantum level indeed wilczek explores just how intertwined our ideas about beauty and art are with our scientific understanding of the cosmos wilczek brings us right to the edge of knowledge today where the core insights of even the craziest quantum ideas apply principles we all understand the equations for atoms and light are almost literally the same equations that govern musical instruments and sound the subatomic particles that are responsible for most of our mass are determined by simple geometric symmetries the universe itself suggests wilczek seems to want to embody beautiful and elegant forms perhaps this force is the pure elegance of numbers perhaps the work of a higher being or somewhere between either way we don t depart from the infinite and infinitesimal after all we re profoundly connected to them and we connect them when we find that our sense of beauty is realized in the physical world we are discovering something about the world but also something about ourselves gorgeously illustrated a beautiful question is a mind shifting book that braids the age old quest for beauty and the age old quest for truth into a thrilling synthesis it is a dazzling and important work from one of our best thinkers whose humor and infectious sense of wonder animate every page yes the world is a work of art and its deepest truths are ones we already feel as if they were somehow written in our souls

this book is based on previously unpublished lectures that wisdom delivered at the university of virginia its content goes significantly beyond that of his other books here he is concerned with how misunderstandings about what it is to prove something or what it is to explain something can infect our thinking in many different fields
