the years between america s founding and the cusp of the civil war are often overlooked in discussions of america s struggle over slavery the conflagration that nearly destroyed the country did not ignite quickly but was the culmination of a long smoldering debate that saw significant developments in those intervening decades in particular the period from 1829 to 1838 witnessed the growth of the abolitionist movement begun by determined visionaries bent on bringing the evils of slavery to the forefront of america s consciousness and ending a glaring injustice attacked by their opponents scorned by both sides for their missionary zeal often relegated to a footnote in history the abolitionists were key in shaping the argument over slavery and bringing america s greatest internal struggle to its conclusion this examination of the abolitionist movement presents a year by year outline of the period from 1829 to 1838 chronicling the growth of the abolitionists as a social and political group by giving an overview of other important occurrences each year it depicts the movement in a broader context cementing relationships between seemingly disparate elements of american history and giving the movement its full due in the struggle to end slavery

the abolitionists of the mid nineteenth century have long been painted in extremes vilified as reckless zealots who provoked the catastrophic bloodletting of the civil war or praised as daring and courageous reformers who hastened the end of slavery but andrew delbanco sees abolitionists in a different light as the embodiment of a driving force in american history the recurrent impulse of an adamant minority to rid the world of outrageous evil delbanco imparts to the reader a sense of what it meant to be a thoughtful citizen in nineteenth century america appalled by slavery yet aware of the fragility of the republic and the high cost of radical action in this light we can better understand why the fiery vision of the abolitionist imagination alarmed such contemporary witnesses as herman melville and nathaniel hawthorne even as they sympathized with the cause the story of the abolitionists thus becomes both a stirring tale of moral fervor and a cautionary tale of ideological certitude and it raises the question of when the demand for purifying action is cogent and honorable and when it is fanatic and irresponsible delbanco s work is placed in conversation with responses from literary scholars and historians these provocative essays bring the past into urgent dialogue with the present dissecting the power and legacies of a determined movement to bring america s reality into conformity with american ideals

owing to a variety of causes the abolitionists have received an immense amount of hysterical praise which they do not deserve and have been credited with deeds done by other men whom in reality they hampered and opposed rather than aided after 1840 the professed abolitionists formed a small and comparatively unimportant portion of the forces that were working towards the restriction and ultimate destruction of slavery and much of what they did was positively harmful to the cause for which they were fighting those of their number who considered the constitution as a league with death and hell and who therefore advocated a dissolution of the union acted as rationally as would anti polygamists nowadays if to show their disapproval of mormonism they should advocate that utah should be allowed to form a separate nation the only hope of ultimately suppressing slavery lay in the preservation of the union and every abolitionist who argued or signed a petition for the dissolution was doing as much to perpetuate the evil he complained of as if he had been a slaveholder the liberty party in running birney simply committed a political crime evil in almost all its consequences they in no sense paved the way for the republican party or helped forward the anti slavery cause or hurt the existing organizations their effect on the democracy was nil and all they were able to accomplish with the whigs was to make them put forward for the ensuing election a slaveholder from louisiana with whom they were successful such were the remote results of their conduct the immediate evils they produced have already been alluded to they bore considerable resemblance except that after all they really did have a principle to contend for to the political prohibitionists of the present day who go into the third party organization and are not even excepting the saloon keepers themselves the most efficient allies on whom intemperance and the liquor traffic can count anti slavery men like giddings who supported clay were doing a thousandfold more effective work for the cause they had at heart than all the voters who supported birney or to speak more accurately they were doing all they could to advance the cause while the others were doing all they could to hold it back lincoln in 1860 occupied more nearly the ground held

by clay than that held by birney and the men who supported the latter in 1844 were the prototypes of those who worked to oppose lincoln in 1860 and only worked less hard because they had less chance the ultra abolitionists discarded expediency and claimed to act for abstract right on principle no matter what the results might be in consequence they accomplished very little and that as much for harm as for good until they ate their words and went counter to their previous course thereby acknowledging it to be bad and supported in the republican party the men and principles they had so fiercely condemned the liberty party was not in any sense the precursor of the republican party which was based as much on expediency as on abstract right and was therefore able to accomplish good instead of harm to say that extreme abolitionists triumphed in republican success and were causes of it is as absurd as to call prohibitionists successful if after countless efforts totally to prohibit the liquor traffic and after savage denunciations of those who try to regulate it they should then turn round and form a comparatively insignificant portion of a victorious high license party the men who took a great and effective part in the fight against slavery were the men who remained with their respective parties no word of praise or approval has mr roosevelt for the men and women for representatives of both sexes were active sharers in the work performed who inaugurated and for a long period carried forward the movement that led up to the overthrow of african slavery in this country he has no encomiums to bestow on those same men and women for the protracted and exhausting labors they performed the dangers they encountered the insults they endured the sacrifices they submitted to the discouragements they confronted in many ways and forms in prosecuting their arduous undertaking on the contrary he has only bitter words of condemnation in his estimation and according to his dogmatic utterance they were criminals political criminals his words make it very manifest that if mr roosevelt had been a voter in 1840 he would not have been an abolitionist he would not have been one of that devoted little band of political philanthropists who went out like david of old to do battle with one of the giant abuses of the time and who found in the voter s ballot a missile that they used with deadly effect on the contrary he would have enrolled himself among their adversaries and assailants becoming a member because it is impossible to think of theodore roosevelt as a non partisan of one of the leading political parties of the day there were but two of them the whigs and the democrats in failing to support one or the other of these parties and giving their votes and influence to a new one that was founded and constructed on anti slavery lines the abolitionists in mr roosevelt s opinion committed a political crime
