with about 200 000 entries starbriefs plus represents the most comprehensive and accurately validated collection of abbreviations acronyms contractions and symbols within astronomy related space sciences and other related fields as such this invaluable reference source and its companion volume starguides plus should be on the reference shelf of every library organization or individual with any interest in these areas besides astronomy and associated space sciences related fields such as aeronautics aeronomy astronautics atmospheric sciences chemistry communications computer sciences data processing education electronics engineering energetics environment geodesy geophysics information handling management mathematics meteorology optics physics remote sensing and so on are also covered when justified terms in common use and or of general interest have also been included where appropriate

this compilation probably looks like one of the craziest things a human being could spend his or her time on yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance this is exactly the story behind this list which appeared first as a few pages within the directory starguides or whatever name it had at that time and as a distinct sister publication since 1990 the idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding

the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields it is for this purpose that this dictionary might be most often used scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions

includes part 1 number 2 books and pamphlets including serials and contributions to periodicals july december
