an introduction to industrial relations and employment relationships which transcends specific national contexts throughout issues of industrial relations are seen within a broad framework of the relationship between governments markets and organization

with the growing concern over the environment new industries and research areas have been developed to identify monitor regulate and legislate environmental interactions as well as to determine and repair existing environmental damage for both the expert and the newcomer a quick convenient and comprehensive source is needed to answer questions on the rapidly increasing amount of environmental information the encyclopedia of environmental analysis and remediation ear responds to this need by providing the reader with an in depth examination of the environmental analysis and remediation fields in a single eight volume reference source

exploring politeness in business emails explores the contextual complexities of workplace emails by comparing british english and peninsular spanish directive

speech events and systematically assessing the impact of contextual factors through a combination of qualitative and quantitative methods of data collection and analysis and the inclusion of metapragmatic insights in the interpretation of the results the book offers an innovative approach to the study of politeness the book partially contradicts previous assumptions about english and spanish directives and provides new insights into the role of politeness in the workplace by offering a meticulous account of the linguistic choices made by the english and spanish first language users and the contextual factors influencing these choices the book suggests far reaching implications for future research in cross cultural pragmatics and business discourse as well as practical implications relevant for academics postgraduate students and practitioners interested in these fields

ifip tc3 the international federation for information processing s technical committee 3 is concerned with education and information technology the educators and computer professionals in tc3 are involved with both perspectives on the subject i e the role of information technology in supporting education and the educational needs of an informatics society this anthology a selection of papers from the last twenty five years is arranged in ten sections each section covers a particular aspect of informatics and education aiming to be characteristic of contributions in that domain illustrative of the changes in technology and perception indicative of the various cultural and economic concerns representative of all tc3 publications over the period

the hiring of part time and temporary workers has historically been a mechanism for adjusting imbalances between supply and demand in the labor market the use of such workers has increased dramatically as technological changes have put a premium on flexibility and as fringe benefits have come to constitute an increasing percentage of labor costs flexibility is sought not only by organizations but also by individuals students women with children disabled persons and retirees all benefit by part time opportunities part time work discusses these opportunities and the risk involved in employment which is sometimes underpaid and devalued and from which movement to full time positions is difficult this volume represents the work of a cross section of specialists in labor economics industrial relations specialists and social scientists who are engaged in research on the transformation of work in canada the united states and great britain chapters focus on the structural aspects of part time work conditions under which such work is performed constraints imposed on employers by official agencies and expectations and attitudes of part time workers rooted in a particular society part time work will prove particularly useful to sociologists
