special issue containing preparatory reports for the society's New Guinea expedition and other material about New Guinea, Torres Straits and Australia

monthly magazine devoted to topics of general scientific interest

how true is it that national socialism led to an ideologically distorted pseudo science? What was the relationship between the

regime funding useful scientific projects and the scientists offering their expertise and what happened to the german scientific community after 1945 especially to those who betrayed and denounced jewish colleagues in recent years the history of the sciences in the third reich has become a field of growing importance and the in depth research of a new generation of german scholars provides us with new important insights into the nazi system and the complicated relationship between an elite and the dictatorship this book portrays the attitudes of scientists facing national socialism and war and uncovers the continuities and discontinuities of german science from the beginning of the twentieth century to the postwar period it looks at ideas especially the humboldtian concept of the university examines major disciplines such as eugenics pathology biochemistry and aeronautics as well as technologies such as biotechnology and area planning and it traces the careers of individual scientists as actors or victims the striking results of these investigations fill a considerable gap in our knowledge of the third reich but also of the postwar role of german scientists within germany and abroad
