this book is a pioneering effort in critical arctic studies the contributions identify and investigate some of the blind spots in human development in the arctic that research in the social sciences had yet to broach to this end the authors tap a variety of critical approaches in fields spanning aesthetics affect theory biopolitics critical geopolitics indigenous archaeology intersectionality legal anthropology moral economy narrative studies neoliberal governmentality queer studies and socio legal studies the chapters probe topics such as representations of the arctic in contemporary art the role of affects in postcolonial greenland canada s arctic policies and china s engagement with the arctic the book provides a rich knowledge base for researchers in arctic social sciences and offers an absorbing textbook for students interested in arctic issues

this volume provides a thoughtful and wide ranging exploration of approaches to the critical study of advertising current and impending practices of advertising have in many ways exceeded the grasp of traditional modes of critique due at least in part to their being formulated in very different historical conditions to begin to address this lag this edited collection explores through critical discussion and application a variety of critical approaches to advertising authors address a variety of concrete examples in their chapters drawing on existing research while presenting new findings where relevant in order to maintain the relevance of this collection past this particular historical moment however chapters do not simply report on empirical work but develop a theoretical argument

this book proposes an original critical theory of environmental sociology which is verified through actual projects relating to infrastructure development the author locates each development project in its social institutional and historical contexts and explains their outcomes as the consequence of the actions of various individuals and groups each acting rationally to optimise their own interests six infrastructure development projects are covered ranging from eco tourism and amusement parks to power and mining projects abatement of industrial pollution and urban transportation interactions between project affected persons paps the promoters of each project and government agencies are analysed at different stages of the projects this book is an important contribution to assessing the socio cultural and environmental impacts of development projects
