this practical guide for students focuses on the city and on the different ways to research it the authors explain how urban studies research is done from the original idea to design and implementation through to writing up and representation substantive chapters explain each method in detail from using archival methods interviews ethnography questionnaires discourse analysis and

diaries to using gis and visual methods this second edition offers a thorough introduction to the research process revised and updated discussions of foundational methods a new chapter on sensory methods a new chapter on social media as an object or a method of studying the city with real world examples throughout and guided further reading for each chapter it is an inspiring guide for students carrying out their own research in urban geography urban planning urban sociology and urban studies

since the late eighteenth century academic engagement with political economic social cultural and spatial changes in our cities has been dominated by theoretical frameworks crafted with reference to just a small number of cities this book offers an important antidote to the continuing focus of urban studies on cities in the global north urban theory beyond the west contains twenty chapters from leading scholars raising important theoretical issues about cities throughout the world past and current conceptual developments are reviewed and organized into four parts de centring the city offers critical perspectives on re imagining urban theoretical debates through consideration of the diversity and heterogeneity of city life order disorder focuses on the political physical and everyday ways in which cities are regulated and used in ways that confound this ordering mobilities explores the movements of people ideas and policy in cities and between them and imaginaries investigates how urbanity is differently perceived and experienced there are three kinds of chapters published in this volume theories generated about urbanity beyond the west critiques reworking or refining of western urban theory based upon conceptual reflection about cities from around the world and hybrid approaches that develop both of these perspectives urban theory beyond the west offers a critical and accessible review of theoretical developments providing an original and groundbreaking contribution to urban theory it is essential reading for students and practitioners interested in urban studies development studies and geography

the handbook of urban studies provides the first comprehensive up to date account of the urban condition relevant to a wide readership from academics to researchers and policymakers it provides a theoretically and empirically informed account embracing all the different disciplines contributing to urban studies leading authors identify key issues and questions and future trends for further research and present their findings so that where appropriate they are relevant to the needs of policymakers using the city as a unifying structure the handbook provides an holistic appreciation of urban structure and change and of the theories by which we understand the structure development and changing character of cities

overlooked cities reflects and impacts the changing landscape of urban studies and geography from

the perspective of smaller and more regional cities in the urban south it critically examines the ways in which cities are uniquely positioned within different urban and knowledge hierarchies the book unpacks the dynamics of overlooked ness in these cities identifies emerging trends and processes that characterise such cities and provides alternative sites for comparative urban theory it is organised into two themes firstly politics and power and secondly production and negotiation of knowledge the authors share a commitment to challenging the unevenness of urban knowledge production by approaching these cities on their own terms only then can we harness the insights emanating from these overlooked cities and contribute to a deeper and richer understanding of the urban itself this collection of essays focusing on 13 cities in nine countries and across three continents luzhou china bharatpur nepal bloemfontein mangaung and pretoria tshwane south africa zarqa jordan santa fe argentina manizales colombia arequipa and trujillo peru dili timor leste bandar lampung semarang and bontang indonesia makes a timely contribution to urban scholarship the volume will be of interest to scholars from the disciplines of urban studies geography development and anthropology as well as postgraduate students researching the global south and third year undergraduate students studying cities and urban studies development and critical thinking

taking on important themes and debates in urban design shaping the city examines the critical ideas that have driven these themes and debates through a study of particular cities at important moments in their development this is a wide ranging collection of in depth case studies each featuring a different perspective style and method of inquiry studied cities include chicago los angeles detroit philadelphia san francisco brasilia and atlanta and the contributors also provide valuable insights into such grand themes as the cybercity the asian megacity and new urbanism together this collection illustrates the complex forces that shape cities and introduces the critical methods and tools used to describe and theorize the urban environment

cities are not only home to around half of the global population but also major centers of economic activity and innovation yet so far there has been no consensus of what a city really is substantial differences in the way cities metropolitan urban and rural areas are defined across countries hinder robust international comparisons and an accurate monitoring of sdgs the report cities in the world a new perspective on urbanisation addresses this void and provides new insights on urbanisation by applying for the first time two new definitions of human settlements to the entire globe the degree of urbanisation and the functional urban area

in 2000 for the first time a majority of the world's population was living in cities the trend towards increasing urbanization shows no sign of slowing and the third millennium looks set to be an

unprecedentedly urban one making sense of cities provides an up to date vibrant and accessible introduction to urban geography it offers students a sense of the patterns and processes of urbanization and the spatial organisation of cities recognizing the significance of globalization economics politics and culture from a range of perspectives above all it seeks to provide a relevant approach inviting students to engage with competing theories of the urban and to assess them against the background of their own opinions and personal experience examples and case studies are drawn from a range of international settings from san francisco to shanghai sydney to singapore giving a genuinely global coverage the book is written in a fresh and engaging style and is fully illustrated throughout it is designed to appeal to any student of the urban and will be essential to students of geography urban studies town planning and land economy

this collection of essays examines the sustainability concerns surrounding social and environmental conditions in the major cities of the asia pacific region issues considered include globalisation foreign direct investment international migration and the changing pattern of cities the second part of the book focuses on particular types of cities with case studies post industrial capital exporting cities such as tokyo and seoul borderless cities such as hong kong and singapore industrial cities such as shanghai and bangkok and amenity cities such as sydney

processes of globalization economic restructuring and urban redevelopment have placed events at the centre of strategies for change in cities events offer the potential to achieve economic social cultural and environmental outcomes within broader urban development strategies this volume analyzes the process of cultural event development management and marketing and links these processes to their wider cultural social and economic context provides a unique blend of practical and academic analysis with a selection of major events and festivals in cities where eventfulness has been an important element of development strategy examines the reasons why different stakeholders should collaborate as well as the reasons why cities succeed or fail to develop events and become eventful eventful cities evaluates theoretical perspectives and links theory and practice through case studies of cities and events across the world critical success factors are identified which can help to guide cities and regions to develop event strategies this book is essential reading for any undergraduate or graduate student and all practitioners and policy makers involved in event management cultural management arts administration urban studies cultural studies and tourism
