larger projects with many stakeholders departments and large teams of employees vendors and contractors require different tools and techniques we start with the best practices project management techniques that your project managers should use to plan schedule budget track and report on their project progress then we move on to managing programs composed of multiple projects linked by a common strategic goal we discuss how to establish a business value for the benefits the project will produce then we move on to allocating resources based on that business value we also cover program design and tracking the progress of each program component in the last section we deal with maximizing the business value of the organizations portfolio of projects we ll treat each project as an investment that must more than pay for itself to earn entry into the portfolio of particular importance is prioritization allocation of scarce resources a set of process that needs to take place in this environment is rigorous project initiation scrutiny and giving the ax to projects that are not achieving their promised results we conclude with tools for analyzing an organization s entire portfolio of projects to maximize the yield

overviewsometimes work seems to combine unlimited needs with limited available resources a situation like this sets up a world of immediate crises rapidly shifting priorities and reactive instead of proactive management and these difficulties make it hard to focus on anything except the task right in front of you but managing work on a portfolio level takes projects programs and portfolios and groups them together to facilitate their management this ensures that they produce the planned benefits and meet the strategic business objectives that you re striving toward managing from a portfolio perspective can give you both the high level and wide angle viewpoints needed to bring all the work under control portfolio management as set out by the project management institute pmi can reduce the chaos by enabling an organization to do the right work at the right time portfolio management processes help to ensure the organization addresses the projects and programs that are the most essential to strategy execution and effective corporate performance while projects and programs are critical to organizational success portfolio management extends beyond the simple completion of these components and focuses on strategic objectives and outcomes it changes how people work together even across organizational boundaries to accomplish project based work whether you are currently a portfolio manager or are just interested in the ideas involved in portfolio management an increased understanding can give you a high level perspective about how your work contributes to your company s goals this high level view is what portfolio management is all about instead of viewing projects and programs in isolation it allows you to consider the dependencies and interactions among these portfolio components as well as between them and other organizational areas between them and other organizational areas this book is aligned to pmi s the standard for portfolio management the standard for portfolio management expands on the work presented in a guide to the project management body of knowledge pmbok guide and the organizational project management maturity model opm3 the standard for portfolio management is pmi s companion to the pmbok guide the standard shows the links between portfolio management and program and project management and between portfolio management and the organization just as the pmbok guide sets out the good

practices for project management the standard for portfolio management presents a documented set of processes showing generally accepted good practices in the area of portfolio management in this book you ll be introduced to the core concepts involved in portfolio management you will discover how important it is to understand the management of portfolios as well as learn about the relationships between portfolio management and project and program management you will also find out about the role of portfolio management within organizations and about the roles and responsibilities of portfolio managers you will be introduced to the links and relationships between portfolio management and organizational strategy governance and operations and learn how metrics and reporting relate to it all
