the new story about the oldest stories in the world today apocalyptic predictions and images dominate popular culture and social media yet for most of our history human

jesus was an enlightened spiritual master who lived and taught in the middle east over two thousand years ago the gospels of matthew mark luke and john are four of the many gospels that claim to describe his life and contain his teachings more recently the spirit of jesus dictated a course in miracles to dr helen schucman a psychologist in new york city the course when it was published included three volumes 1 a theoretical text 2 a workbook for students and 3 a manual for teachers a preface and two supplements were received by the same process and added to it later so now we have two ways to study and explore what jesus taught this book examines his teachings from both sources regarding 1 love and spirit 2 giving getting and receiving 3 spiritually guided forgiveness and 4 our relationship with god and each other you will discover as the author did that the gospels and the course are largely in agreement as one would expect if they came from the same teacher this book is also available in kindle and paperback editions on amazon and epub and audio editions on kobo

historically and culturally sufism and zen may not seem to have anything in common however in the west their spiritual messages are often perceived as strikingly similar in this book scholars analyse the ways in which sufism and zen were introduced to and developed in the west the collection shows that the popularity of these

religions arose not because of the substantive shared elements within the two traditions but because their promoters in the west employed similar strategies to respond to the interests of a modern western audience the first book to make a close comparison of sufism and zen this study is an important contribution to understanding western religious life and processes of easternisation it sheds new light on how sufism and zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities

the world faces a crisis of meaning the old stories whether the exclusive claims of rival religions or the grand schemes of perennial philosophy seem bankrupt to many the editorial stance of this book is that mysticism and science offer a way forward here but only if they abandon the idol of a single logical synthesis and acknowledge the diversity of different ways of knowing the contributors from disciplines as diverse as music psychology mathematics and religion build a vision that honours diversity while pointing to an implicit unity
