the seven steps to reading a graphic 1 identify the format what do you think of when you see a specific graphic format 2 study the title

what is the purpose or main idea behind the graphic 3 interpret the text and labels what are the components of the chart 4 analyze the legends are the components identified by special symbols patterns or colors what do abbreviations mean 5 determine the measurement and the components what is being measured how often and by what measurement 6 write two questions about the graphic what are two things you want to know as you look at the display find the answers 7 review the total graphic does your analysis fit with your first impression of the graphic

master s thesis from the year 2017 in the subject english language and literature studies literature grade 1 5 university of siegen language english abstract in this thesis the author scrutinizes the advantages of using graphic novels in teaching english as a foreign language and tries to answer the following research question in how far does reading and working with graphic novels improve the linguistic and cultural competence of german students in english as a foreign language efl this thesis consists of two parts a theoretical part that will acquaint the reader with the notion of visual literacy some basics on comic style theory the development of intercultural communicative competence and second language acquisition in the second part the author looks at two research projects dealing with the integration of graphic novels in elt at a german grammar school the first project is conducted in an eighth grade and investigates students linguistic development through reading graphic novels and both students and the teacher s appreciation of graphic novels the second research project is conducted in an eleventh grade and investigates students development of intercultural communicative competence and both the students and teacher s enthusiasm towards using graphic novels in language teaching at the end the author will answer the research question in the form of a conclusion

intended for designers of culture oriented visual materials for use in functional literacy and development communication in different cultures and countries this manual is one in a series of training monographs on literacy in development the three chapter titles are understanding visual literacy acquiring visual literacy and designing visual messages fl

seminar paper from the year 2015 in the subject didactics for the subject english pedagogy literature studies grade 12 punkte justus liebig university giessen language english abstract the 21st century is an age in which images in various forms play a dominating role be it in magazines and newspapers tv and cinema or the internet as a consequence children growing up in this media age are inevitably confronted with a flood of images from early age on this fact makes it necessary to address such topics as visual learning and visual literacy also at school this seems important for at least two reasons first in an age where visual communication plays a vital role children are required to acquire visual literacy already at an early age in order to be able to learn to judge interpret and communicate with images in the right way second visual media like for example photographs films comics and graphic novels are calculated to make lessons more attractive and motivate students and thus make learning easier and more fun this is not only true for

subjects taught in the mother tongue but also for english as a foreign language efl since in germany english is already taught in primary school visual learning may provide a way to facilitate efl by offering a playful approach and furthermore by profiting from children s interest in visual worlds thus as underscored by stafford 2011 2 visual teaching is not just another trend but rather bears witness to a highly necessary adjustment of the curriculum to reality i e new forms of communication especially the internet and smart phones the work at hand deals with the question why visual learning should be taught in primary school and will provide an overview of the various reasons which are relevant in that respect as well as the most important strategies of visual teaching in the first chapter the concepts of visual learning and visual literacy will be looked at and their most important characteristics will be dealt with furthermore the various reasons for teaching visual learning in primary school will be discussed furthermore a short overview of possible strategies to be used in visual teaching is offered in the second chapter there will be a critical discussion of the topic including the use of new media like internet in the classroom

this investigation attempted to determine the feasibility of using selected wordless picture books and non narrated films to facilitate reading achievement the participating students transcribed oral language and written language about various aspects of the wordless picture books and non narrated films were used as the bases for reading experiences and the development of the students reading abilities twenty fourth grade students were identified for participation in this study based on an iq score of 90 or higher and a score on the reading test which indicated that the student was at least a year or more behind his ability level as calculated through the bond tinker expectancy formula the study was a one group pretest posttest design using alternate forms of the california reading test the results indicated 1 significant growth in reading vocabulary comprehension and total reading scores 2 growth in oral language facility and 3 significant growth in written language facility no significant change in students attitudes toward reading was revealed author ll

the signs are everywhere for those who can read them because of television advertising and the internet the primary literacy of the 21st century will be visual it s no longer enough to read and write text our students must learn to process both words and pictures they must be able to move gracefully and fluently between text and images between literal and figurative worlds page 4 of cover

this book presents techniques and guided practice at will enable readers to accomplish reading tasks within an efficient and realistic framework new chapters on visuals teach students how to read and interpret visuals and graphics maps tables pie charts diagrams etc and how to use internet electronic resources and multimedia study aids more than 75 new exercises are included

presents practical suggestions for pairing a graphic novel with a traditional text or examining connections between multiple sources

writing in the elementary classroom considers writing development from many different angles creating a rich collage that focuses on how to help students develop into competent writers
