presenting the american jewish historical experience from its communal beginnings to the present through documents photographs and other illustrations many of which have never before been published this entirely new collection of source materials complements existing textbooks on american jewish history with an organization and pedagogy that reflect the latest historiographical trends and the most creative teaching approaches ten chapters organized chronologically include source materials that highlight the major thematic questions of each era and tell many stories about what it was like to immigrate and acculturate to american life practice different forms of judaism engage with the larger political economic and social cultures that surrounded american jews and offer assistance to jews in need around the world at the beginning of each chapter the editors provide a brief historical overview highlighting some of the most important developments in both american and american jewish history during that particular era source materials in the collection are preceded by short headnotes that orient readers to the documents' historical context and significance

a new study of those excluded from the national narrative of the west dan moos challenges both traditional and revisionist perspectives in his exploration of the role of the mythology of the american west in the creation of a national identity while moos concurs with contemporary scholars who note that the myths of the american west depended in part upon the exclusion of certain groups african americans native americans and mormons he notes that many scholars in their eagerness to identify and validate such excluded positions have given short shrift to the cultural power of the myths they seek to debunk that cultural power was such moos notes that these disenfranchised groups themselves sought to harness it to their own ends through the active appropriation of the terms of those myths in advocating for their own inclusion in the national narrative that because the construction of american culture was never

designed to accommodate these outsiders their writings display a division between their imagined place in the narrative of the nation and their effacement within the real west marked by intolerance and inequality

this book explores the life and times of ecuador s most controversial politician within the broader context of the new political history addressing five major themes of nineteenth century latin american history the creation of political networks the divisiveness of regionalism the bitterness of the liberal conservative ideological divide the complicating problem of caudillismo and the quest for progress and modernization two myths traditionally associated with garcía moreno s rule are debunked the first is that he created a theocracy in ecuador instead the book argues that he negotiated a concordat with the papacy giving the national government control over the church s secular responsibilities and subordinated the clergy many of whom were highly critical of garcía moreno to the conservative state a second frequently repeated generalization is that he created a conservative dictatorship out of touch with the liberal age in which he lived instead the book argues that moderates held sway during the first nine years of garcía moreno s period of influence and only during his final term did he achieve the type of conservative state he thought necessary to advance his progressive nation building agenda in sum this book enriches our understanding of many of the notions of state formation by suggesting that conservatives like garcía moreno envisioned a program of material progress and promoting national unity under a very different formula from that of nineteenth century liberals

this fascinating book provides a global exchange of information about counseling activities and services counselor training and existing professional practices beliefs and values native counselors and leading experts from 40 countries discuss the opportunities for growth in their countries and the challenges they face after an introductory section that discusses global diversity themes and issues chapters focus on key countries in africa asia europe the middle east north america oceania and south
