scientific study from the year 2019 in the subject economics finance grade 10 language  
english abstract the purpose of this study is to give a clear picture of the development of  
albania s foreign trade in a long time from the 16th century to the present day it will also  
address the features of each period and the most important trade agreements given the  
favorable geographic position albania has had trade relations with a large number of states  
but these relations have greatly influenced the policies pursued by our country over the  
years albania s foreign trade liberalization was not an immediate process and act this  
process initially started with breaking the state monopoly on foreign trade which was  
initiated by the privatization and overall liberalization of the economy initially from the legal  
point of view to that of the laws adopted by the democratic parliament and then gradually  
being implemented by the side of executive power the causes that make international trade  
cooperation necessary are related to uneven distribution of production factors changes in  
taste and consumption economies of scale absolute and realistic output advantages  
climate factors economic and geographical proximity international transfer technology  
international labor migration and so on states that transformed their power from  
communism to democracy faced such economic problems that are solved during the  
economic transition period one of them is albania which still seems to have been hostage  
to the transition process another important point of this topic will be the relations between  
albania and kosovo how did they walk how would a customs union affect the development  
between the two countries has the development of the nation s path awaited the

development of trade relations how is the level of exports and imports between them these will be some of the points that will be answered in this study
