the book you are holding in your hands is perhaps the simplest most straightforward summary and how to guide for presuppositional apologetics now in print it is both informative and practically helpful i believe you will find it an extremely useful tool whether you are an professor at the seminary level seeking supplemental reading material or just a simple lay person looking for practical answers pastor mcmanis writes with crisp clarity in a way that is certain to give you

fresh insight into what scripture teaches about the defense of the christian faith i wish this book had been available when i was studying apologetics in seminary john macarthur pastor teacher grace community church president of the masters college and seminary cliff has rescued the discipline from the elite circle of the intelligentsia and returned it as a biblical theology of truth communication to the common people i e to all believers this volume will be of great help in the restoration of the practicality of biblical apologetics as it was exemplified in the early church hopefully todays readers will be able to understand and put into practice the true nature of peters command in 1 peter 3 15 as it is strategically situated in its defining context george j zemek academic dean the expositors seminary jupiter florida

a fresh take on apologetics for a modern world of unbelief are you ready to defend your faith with intellectual rigor and biblical clarity defending god s existence by ken ham offers a groundbreaking approach to apologetics rooted in the powerful van tillian presuppositional method the gold standard for defending the christian worldview unlike conventional apologetic strategies that often concede human reason as the ultimate authority this book boldly asserts that the god of the bible and his word are the absolute foundational standard for all truth logic and knowledge learn how to address modern skeptics many christians struggle to respond to skeptics who dismiss the bible this book reveals why starting with man s fallen reasoning leads to inherent inconsistencies and ultimately fails to provide a coherent worldview instead you ll learn to employ the transcendental argument for the existence of god tag which demonstrates that logic morality science and even the possibility of knowledge itself are only intelligible because the biblical god exists you will discover how all other worldviews borrow from the christian worldview to make sense of the world whether they realize it or not defending god s existence will equip you to understand why traditional apologetic methods often fall short in proving the biblical god master the nuclear strength apologetic to expose the arbitrariness inconsistency and lack of preconditions for intelligibility in atheistic naturalistic and other religious worldviews confidently affirm that the bible is true because any alternative makes knowledge and logic impossible use evidence as a powerful confirmation of biblical truth not as a starting point dependent on human interpretation gently and respectfully challenge humanistic thinking by revealing its foundational flaws always pointing to god and his word as the ultimate authority this book emphasizes that while apologetics can dismantle false worldviews and answer skeptical questions the ultimate goal is to present the gospel with gentleness and respect recognizing that it is the holy spirit who brings about salvation accessible yet deep from god s attributes and the trinity to comparing scripture with other so called holy books this 224 page resource makes complex ideas approachable even for newcomers to apologetics while offering robust

insights for seasoned defenders of the faith prepare to transform your understanding of defending the faith and empower yourself to proclaim the truth of god s existence in a world desperately searching for meaning

includes section reviews of recent theological literature

for centuries it has been discussed whether systematic theology is a scientific discipline but it is not obvious what is meant by either systematic theology or scientific discipline michael agerbo mørch presents an understanding of systematic theology as a tripartite discipline and science as a rationally justified public discourse about a given topic systematic theology is shown to meet the most generally accepted criteria for scientific work since its theories can be tested and even falsified in an intersubjective setting this can be done by the most proper tool we have for assessing and comparing scientific theories which is coherence theory therefore even though systematic theology is a distinct and normative discipline it is not compromising for its theories because it can present its theses in a transparent way that can be checked and criticized by peers and compared to relevant alternatives as such the book shows that systematic theology is a scientifically strong discourse that meets accepted criteria to the same degree as other disciplines

the christian faith offers people hope but how can we know that christianity is true how can christians confidently present their beliefs in the face of doubts and competing views in this second edition of a landmark apologetics text douglas groothuis makes a clear and rigorous case for christian theism addressing the most common questions and objections raised regarding christianity
