lors des fouilles archéologiques c est le plus souvent sous forme fragmentaire que l on retrouve les décors peints du monde romain quant aux peintures découvertes en place il était d usage à certaines périodes de les démanteler pour en emporter ce qu on estimait le plus digne d intérêt c est à l histoire de ces fragments que s intéresse cet ouvrage en interrogeant les transformations qu ils subissent dans leur statut comme dans leurs fonctions il était en effet courant dans l antiquité de réemployer les revêtements détruits comme matériau de construction pour combler des structures réaliser des niveaux de préparation de sol ou encore servir dans le blocage voire dans les parements de murs ils perdaient alors leur fonction décorative qu ils retrouvent par la suite entre les mains de l archéologue qui tente de les reconstituer si la recherche a beaucoup progressé aux cours des dernières décennies sur la reconstitution et l étude des décors qui nous sont parvenus à l état fragmentaire elle a néanmoins prêté peu d attention aux fragments en eux mêmes devenus un temps matériaux de emploi ou simples gravats c est précisément cette deuxième vie tout aussi riche d informations que la première sur les pratiques de la société romaine qui est éclairée dans la première partie de l ouvrage le statut esthétique et symbolique du fragment a également évolué au cours de l histoire témoignage du monde antique arraché à l œuvre de l homme et du temps son incomplétude peut grever l intérêt qu on lui porte ou au contraire lui donner un caractère d autant plus précieux que menacé la seconde partie s intéresse ainsi à l évolution du statut du fragment de décor et de son traitement aux époques moderne et contemporaine l ambition est ainsi de participer à une réflexion plus large sur les pratiques de construction anciennes et sur les méthodes de restauration et conservation modernes et contemporaines
