this book identifies how artificial intelligence ai systems can be used as part of decision processes within international tax and transfer pricing disputes the issue of double taxation and its impact on economic development continues to escalate as globalization causes states to interact on a growing scale in recent years ai applications have shown potential to solve this issue particularly in reference to the length of time taken to resolve cases of double

taxation in the field of transfer pricing these cases can typically take at least two or more years to resolve resulting in high cost to taxpayers and tax administrations the book identifies the current legal frameworks available to prevent and solve tax and more specific transfer pricing disputes and details their advantages and disadvantages providing an analysis of what ai can offer to different legal principles it shows how this can challenge existing rules and the changes this requires within the legal framework the book provides an overview of the challenges and opportunities that lie at the intersection of ai systems and the domain of international law providing case studies to demonstrate its practical applications it asks and answers the fundamental question can ai or more specifically machine learning ml replace human decisions within the resolution of international tax and transfer pricing disputes the book will be of interest to researchers in the field of tax law data protection law consumer protection law intellectual property law and artificial intelligence

writing constitutions intends to serve as a manual for those writing constitutions or interested in their design it is the first coherent systematic and universal approach to capture concept and content of a modern constitution constitutional principles as outlined in volume iii reflect the underlying philosophy and identity of a nation they include core concepts such as the rule of law democracy and electoral systems the social cultural and the ecological constitution flanked by constitutional designs for a preamble an international framework the popular referendum and a territorial division the comparative step by step approach empowers judges lawyers civil rights activists legislators and academics to draft and interpret the major constitutional principles writing constitutions comes in three volumes volume i institutions volume ii fundamental rights volume iii constitutional principles

derived from the renowned multi volume international encyclopaedia of laws this practical analysis of sports law in spain deals with the regulation of sports activity by both public authorities and private sports organizations the growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations sports law at

a national or organizational level thus gains a growing relevance in comparative law the book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play however the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities this form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport it is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured this monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level lawyers representing parties with interests in Spain will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

this is the first book to present the law of the baltic states in one comprehensive and coherent volume in English the baltic states region which was incorporated by the soviet union for 50 years and now is the only such territory in the EU continues to be characterized by a number of unique traits problems and developmental trends this book addresses these facets of law the status quo problems and trends by adopting a comparative perspective structure for all three baltic states divided into three main parts estonia latvia and lithuania each of these parts examines similar core aspects general frameworks public law and private law taking into account the peculiarities of each country the individual chapters provide analyses of principles problems and developments in specific legal branches the authors of the book are recognized academics and professionals in the field of law taken together their contributions offer a valuable tool and resource for anyone interested in the law of the baltic states students legal practitioners scholars administrators etc

innovation in public procurement is essential for sustainable and inclusive growth in an increasingly globalized economy to achieve that potential both the promises and the perils of innovation must be investigated including the risks and opportunities of joint procurement across borders in the european union and the united states this in depth research investigates innovation in public procurement from three different perspectives first leading academics and practitioners assess the purchase of innovation with a particular focus on urban public contracting in smart cities involving meta infrastructures public private partnership arrangements and smart contracts a second line of inquiry looks for ways to encourage innovative suppliers here the collected authors draw on emerging lessons from the us and europe to explore both the costs and the benefits of spurring innovation through procurement a third perspective looks to various innovations in the procurement process itself with a focus on the effects of joint and cross border procurement in the eu and us landscapes the chapters review new technologies and platforms the increasingly automated means of selecting suppliers and the related efficiencies that big data can bring to public procurement expanding on research in the editors prior volume integrity and efficiency in sustainable public contracts balancing corruption concerns in public procurement internationally bruyant 2014 this volume builds on a series of academic conferences and exchanges to address these issues from sophisticated academic institutional and practical perspectives and to point the way to future research on the contractual models that are emerging from new procurement technologies

fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory starting from the moment they are designed and following them through distribution and marketing phases all the way until they reach the end user contract law intellectual property company law tax law international trade and customs law are of fundamental importance in defining this new field of law that is gradually taking shape this volume focuses on the new frontiers of fashion law taking into account the various fields that have recently emerged as being of great interest for the entire fashion world from sustainable fashion to wearable technologies from new remedies to cultural appropriation to the regulation of model weight from advertising law on the digital market to the impact of new technologies

on product distribution the purpose is to stimulate discussion on contemporary problems that have the potential to define new boundaries of fashion law such as the impact of the heightened ethical sensitivity of consumers who increasingly require effective solutions that a comparative law perspective renders more interesting the volume seeks to sketch out the new legal fields in which the fashion industry is getting involved identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner

the role of the state and industrial relations edited by adalberto perulli tiziano treu the new era of industrial relations that has been stealthily changing the world of work in recent decades seems to have reached a stage where it can be systematically monitored and analyzed in great part because the creeping renationalization that has been noted since the financial crisis of 2008 has reinvigorated state intervention in essential economic structures the contributions in this unrivalled book provide important new perspectives on the many challenges inherent in the present and future of the relationship between industrial relations and the state analyzing industrial relations systems from international supranational european and national points of view and with an interdisciplinary approach connecting labour law commercial law corporate governance and international law this one of kind book examines such salient aspects of the subject as the following cooperative versus conflictual industrial relations systems phenomenon of constitutionalization of power by multinational enterprises competitive illiberal and protectionist patterns of state regulation freedom of association and industrial relations potential power of transnational collective bargaining impact of worktime arrangements role of european works councils exemplary value of the german system of workers participation and global framework agreements using a comparative approach the european union france spain germany italy japan china the united states brazil south africa india the book reconstructs the general framework of global industrial relations considering challenges and future prospects and proposing a new agenda for the state contributors include widely renowned professors of labour commercial and international law as well as experts from the international labour organization and the international society for labour and social security law the debate about

industrial relations and the state in our globalized world is of major concern for practitioners in governments companies employers associations and trade unions as well as for company managers entrepreneurs consultants judges human rights lawyers and academics interested in labour industrial relations and social rights in european and international contexts

history of specific subjects this delightful and best selling tale of one of the world s favorite foods draws upon botany archaeology and culinary history to present a complete and accurate history of chocolate the story begins some 3 000 years ago in the jungles of mexico and central america with the chocolate tree theobroma cacao and the complex processes necessary to transform its bitter seeds into what is now known as chocolate this was centuries before chocolate was consumed in generally unsweetened liquid form and used as currency by the maya and the aztecs after them the second edition draws on recent research and genetic analysis to update the information on the origins of the chocolate tree and early use by the maya and others and there is a new section on the medical and nutritional benefits of chocolate 100 illustrations 15 in color

the present volume deals with terrorism both the legislative reactions to it and its impact on human rights it is argued that the preservation of human rights is vital for the prevention of terrorism encompassing state and non state terrorism alike further the study shows that legislators tend to disregard fundamental human rights when confronted with terrorism they are terrorised themselves by the incident and risk to overreact after an historical account of selected pseudo terrorist movements throughout time and space an inventory of anti terror legislation in four european countries within the last forty years follows in this context the author examines the role of the judiciary with a special focus on the european court of human rights in strasbourg as a result we get a complex view on what happened with regard to terrorism and anti terrorism in different european countries in the past and is happening at present and what this means for human rights this allows us to put contemporary anti terror legislation into perspective how have different governments dealt with terrorism in the past how has the law developed after september 11th 2001 which lessons can be learned and what

can we expect in the future about this book this book is to be recommended since it discusses both the european choices in the fight against terror and their problems sarah baier in newsletter menschenrechte 2010 1
