With an easy-to-understand writing style, *Essentials of Economics* is the most popular and widely used economics textbook in college economics classes. Author Greg Mankiw has created a textbook that's accessible to everyone, particularly students encountering economics for the first time, emphasizing real-life scenarios and engaging facts on the economy and its fundamental principles. Important notice: Media content referenced within the product description or the product text may not be available in the ebook version.

David R. Hakes, University of Northern Iowa, has prepared a study guide that will enhance student success. Each chapter of the study guide includes learning objectives, a description of the chapter's context and purpose, a chapter review, key terms and definitions, advanced critical thinking questions, and helpful hints for understanding difficult concepts. Students can develop their understanding by doing the practice problems and short-answer questions, then assess their mastery of the key concepts with the self-test, which includes true/false and multiple-choice questions.

Principles of Macroeconomics 9th edition boils economics down to its essentials by considering what is truly important for students to learn in their first course in economics. In keeping with the author's philosophy of showing students the power of economic tools and the importance of economic ideas, this edition pays careful attention to regional and global policies and economic issues, including the impacts of contemporary macroeconomic issues: inflation, unemployment, interest rates, and monetary and fiscal policy. The resource emphasises the material that students should and do find interesting about the study of the economy, resulting in a focus on applications and policy, and less on formal economic theory. Principles of Macroeconomics 9th edition encourages students to make their own judgements by presenting both sides of the debate on five controversial issues facing policy makers: the proper degree of policy activism in response to the business cycle, the choice between rules and discretion in the conduct of monetary policy, the desirability of reaching zero inflation, the importance of balancing the government's budget, and the need for tax reform to encourage saving.
