oxford studies in medieval philosophy showcases the best new scholarly work on philosophy from the end of antiquity into the renaissance osmp combines historical scholarship with philosophical acuteness and will be an essential resource for anyone working in the area

a symposium held in 1973 chaired and organized by william r dawson was the first major attempt to summarize and synthesize the existing information in the then emerging field of avian energetics the symposium featured papers by james r king william a calder iii vance a tucker and robert e ricklefs and commentaries by george a bartholomew s charles kendeigh and eugene p odum the proceedings of the symposium avian energetics paynter 1974 played a critical role in stimulating interest and research in the field of avian energetics some twenty odd years later we are making another attempt to summarize the information in the field of avian energetics some obvious differences exist between its predecessor and this volume numerous improvements in methodology such as the use of doubly labeled water to estimate metabolism in free living birds now allow researchers to ask questions that could not be addressed previously second consideration of nutrition is now inseparable from that of energetics this merger is necessary not only because food intake is the source of both energy and nutrients but also because one or more nutrients rather than energy can be limiting for a given species in a particular instance finally the study of energetics and nutritional ecology particularly in birds and mammals has grown so dramatically that a single volume can now only partially cover the range of possible topics and can catalogue only a sampling of all the studies on the subject

in recent years a number of european countries abolished national border controls in favor of europe's external frontiers in doing so they challenged long established conceptions of sovereignty territoriality and security in world affairs setting forth a new analytic framework informed by constructivism and pragmatism ruben zaiotti traces the transformation of underlying assumptions and cultural practices guiding european

policymakers and postnational europe shedding light on current trends characterizing its politics and relations with others the book also includes a fascinating comparison to developments in north america where the united states has pursued more restrictive border control strategies since 9 11 as a broad survey of the origins evolution and implications of this remarkable development in european integration cultures of border control will be of interest to students and scholars of international relations and political geography

includes titles on all subjects some in foreign languages later incorporated into memorial library
