although the details of tax law are literally endless differing not only from jurisdiction to jurisdiction but also from day to day structures and patterns exist across

tax systems that can be understood with relative ease this book now in an updated new edition focuses on these essential patterns it provides an immensely useful introduction to the core common knowledge that any well informed tax lawyer or policy maker should have about comparative tax law in our times the busy reader will welcome the compact nature of this work which is shorter than the first edition and can be read in a weekend if one skips footnotes the authors elucidate the commonalities and differences across countries in areas including much of the detail new to the second edition general anti avoidance rules court decisions striking down tax laws as violating constitutional rules against retroactivity unequal treatment of equals confiscation and undue vagueness statutory interpretation inflation adjustment rules and the allowance for corporate equity value added tax systems concepts such as tax capital gain tax avoidance and partnership corporate shareholder tax systems the relationship between tax and financial accounting taxation of investment income tax authorities ability to obtain and process information about taxpayers and systems of appeals from tax assessments the information and analysis pull together valuable material which is scattered over a disparate literature much of it not available in english especially considering the dynamic nature of tax law whose rate of change exceeds that of any other field of law the authors clear identification of the underlying patterns and fundamental structures that all tax systems have in common as well as where the differences lie guides the reader and offers resources for further research

tax law an introduction deals with the fundamentals of income tax in a practical and clear manner that makes this book an ideal tool for tax teachers written for students this much needed textbook simplifies complex concepts and avoids unnecessary jargon as it explains the key objectives and principles of taxation the book sheds light on contemporary south african tax law and the most important tax cases it covers the process of tax collection as well as the interpretation of tax legislation tax law an introduction is intended to ease the teaching and understanding of an often daunting subject the book includes a link to the relevant acts for easy access by students back cover

these are the papers from the 8th cambridge tax law history conference held in july 2016 in the usual manner these papers have been selected from an oversupply of proposals for their interest and relevance and scrutinised and edited to the highest standard for inclusion in this prestigious series the papers fall within five basic themes two papers focus on tax theory one on john locke and another on the impact of english tax literature in the netherlands in the nineteenth century five deal with the history of uk specific interpretational issues in varying contexts an ancient exemption insurance companies special contribution the profits tax gaar and capital gains tax two more papers consider aspects of hmrc operations another three focus on facets of international taxation including treaties between the uk and european countries treaties between the uk and developing countries and the un model tax treaties of 1928 the book also

incorporates a range of interesting topics from other countries including the introduction of income tax in ireland and in chile post war income taxation in australia early interpretation of income in new zealand and a discussion of some early indirect taxes in india and china

explains the principles underlying the major taxes and offers an insight into how tax law has developed and is applied this new edition ignores the detailed and frequently changing provisions found in practitioner texts aiming to make the principles and

taxation law can be an incredibly complex subject to absorb particularly when time is limited written specifically for students principles of taxation law 2017 brings much needed clarity to this area of law utilising many methods to make this often daunting subject achievable particular features of the 2017 edition include seven parts overview and structure principles of income deductions and offsets timing issues investment and business entities tax avoidance and administration and indirect taxes clearly structured chapters within those parts grouped under helpful headings flowcharts diagrams and tables end of chapter practice questions and case summaries and an appendix containing all of the up to date and relevant rates every major aspect of the australian tax system is covered with chapters on topics such as goods and services tax superannuation offsets partnerships capital gains tax trusts company tax tax administration and state taxes provided by publisher

tax law changes at a startling rate not only does societal change bring with it demands for change in the tax system but changes in the political climate will force change as will many other competing pressures with this pace of change it is easy to focus on the practical and forget the core underpinnings of the tax system and their philosophical justifications taking a pause to remind ourselves of those principles and how they can operate in the modern tax system is crucial to ensuring that the tax system does not diverge too far from what it should be or could be it is essential to understand the answers to some of the seemingly basic questions that surround tax before we can even begin to think about what a tax system should look like this collection brings together major themes and difficult questions in the philosophical foundations of tax law the chapters consider practical issues such as justification enforcement design and mechanics and provide a full and coherent analysis of the basis for tax law philosophical foundations of tax law allows the reader to consider how tax systems should move forward in the modern world with a sound philosophical basis to provide the practical tax system that the state requires and citizens deserve

considers the corporation tax provisions of the payne tariff act of 1909

legal interpretation of tax law is a comprehensive multi jurisdiction survey of the interpretation of the corporate income tax and vat and gst or other general sales tax laws as a result of the globalization of trade and business tax departments and their external advisors are increasingly required to deal with the tax law of foreign jurisdictions effective consulting whether internal or external requires not only knowledge of tax law per se but also of how tax law is explained and interpreted by the courts of foreign jurisdictions this book is the first to deal comparatively with tax law interpretation in economies engaged in cross border investment at a global level 00the introduction outlines the theoretical approaches to legal interpretation in general and gives an overview of issues and topics relevant to taxation designed to help readers understand the jurisdictional chapters that follow each author pays detailed attention to such documentary elements as explanatory memoranda administrative rulings judicial precedents judgments of foreign courts legislative debates and oecd guidelines
