in the complete lives of camp people rudolf mrázek presents a sweeping study of the material and cultural lives of twentieth century concentration camp internees and the multiple ways in which their experiences speak to the fundamental logics of modernity mrázek focuses on the minutiae of daily life in two camps theresienstadt a nazi ghetto for jews near prague and the dutch isolation camp boven digoei which was located in a remote part of new guinea between 1927 and 1943 and held indonesian rebels who attempted to overthrow the colonial government drawing on a mix of interviews with survivors and their descendants archival accounts ephemera and media representations mrázek shows how modern life s most mundane tasks buying clothes getting haircuts playing sports continued on in the camps which were themselves designed built and managed in accordance with modernity s tenets in this way mrázek demonstrates that concentration camps are not exceptional spaces they are the locus of modernity in its most distilled form

ch 4 p 55 70 the legacy of the third reich reflects on the barrier between germans and jews generated by the years of nazism and the holocaust the german government has tried to overcome this barrier using such means as reparations official visits of former german jews to their birthplaces in germany subsidies to jewish organizations reception of jewish immigrants from the former ussr and suppression of right wing anti jewish activities ch 6 p 81 90 jews and germans reflects on the complicated process of reconciliation between germans and jews and on attempts to return jews both physically and culturally into german society and culture shows that the question of the degree and uniqueness of german guilt toward the jews also remains a burning issue

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he d anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitler s rule

this memoir details the experiences of a greek jew in hitler s concentration camps marco nahon a physician educated at the university of beirut was practicing medicine and living with his family in the small thracian town of dhidhimoteichon dimotika already in nazi hands when the germans began rounding up jews

could the allies have prevented the deaths of tens of thousands of holocaust victims inspired by a conference held to mark the opening of the us holocaust memorial museum this book brings together the key contributions to this debate

the nazis set up concentration and death camps in order to isolate torture and murder millions of men women and children in auschwitz bergen belsen treblinka the holocaust camps author ann byers details the system of camps in europe during the holocaust byers recounts the horrifying conditions suffered by camp inmates as well as their struggles for life and hope in a world gone mad the remains of many camps still stand today to serve as a chilling reminder of the holocaust this book is developed from the holocaust camps to allow republication of the original text into ebook paperback and trade editions

they were foot soldiers and officers they served in the regular army and the waffen ss and remarkably they were also jewish at least as defined by hitler s infamous race laws pursuing the thread he first unraveled in hitler s jewish soldiers bryan rigg takes a closer look at the experiences of wehrmacht soldiers who were classified as jewish in this long awaited companion volume he presents interviews with twenty one of these men whose stories are both fascinating and disturbing as many as 150 000 jews and partial jews or mischlinge served often with distinction in the german military during world war ii the men interviewed for this volume portray a wide range of experiences some came from military families some had been raised christian revealing in vivid detail how they fought for a government that robbed them of their rights and sent their relatives to extermination camps yet most continued to serve since resistance would have cost them their lives and they mistakenly hoped that by

their service they could protect themselves and their families the interviews recount the nature and extent of their dilemma the divided loyalties under which many toiled during the nazi years and afterward and their sobering reflections on religion and the holocaust including what they knew about it at the time rigg relates each individual s experiences following the establishment of hitler s race laws shifting between vivid scenes of combat and the increasingly threatening situation on the home front for these men and their family members their stories reveal the constant tension in their lives how some tried to hide their identities and how a few were even aryanized as part of hitler s effort to retain reliable soldiers including field marshal erhard milch three star general helmut wilberg and naval commander bernhard rogge chilling compelling almost beyond belief these stories depict crises of conscience under the most stressful circumstances lives of hitler s jewish soldiers deepens our understanding of the complex intersection of nazi race laws and german military service both before and during world war ii

the jewish diaspora of the caribbean constantly redefined itself under changing circumstances this volume looks at many aspects of this complex past and suggests different ways to understand it as a jewish diaspora dispersed under different european colonial empires as a jewish body joined together by a set of shared jewish traditions and historical memories and as one component in a web of relationships that characterized the atlantic world

in march of 1933 a disused factory surrounded by barbed wire held 223 prisoners in the town of dachau by the end of 1945 the ss concentration camp system had become an overwhelming landscape of terror twenty two large camps and over one thousand satellite camps throughout germany and europe were at the heart of the nazi campaign of repression and intimidation the importance of the camps in terms of nazi history and our modern world cannot be questioned dr nikolaus wachsmann is the first historian to write a complete history

of the camps combining the political and the personal wachsmann examines the organisation of such an immense genocidal machine whilst drawing a vivid picture of life inside the camps for the individual prisoner the book gives voice to those typically forgotten in nazi history the social deviants criminals and unwanted ethnicities that all faced the terror of the camps wachsmann explores the practice of institutionalised murder and inmate collaboration with the ss selectively ignored by many historians pulling together a wealth of in depth research official documents contemporary studies and the evidence of survivors themselves kl is a complete but accessible narrative

the book consists of four parts four chapters of texts on the history of the jews in poland appendixes illustrations and maps regarding antisemitism see ch 4 pp 87 136 german annihilation of the jews and three brief texts in the appendices which relate to antisemitism

the nazi genocide of the jews while unique in some ways was not the only genocide of the twentieth century this innovative book the product of a year long collaboration of scholars from many disciplines is the first curriculum to systematically tie the teaching of the holocaust to an analysis of the genocides in armenia bosnia and kosovo and rwanda the book consists of five parts introduction history of the holocaust representations of the holocaust in literature film and the arts other genocides and ethics the curriculum shaped with feedback from those who teach holocaust studies consists mainly of primary documents and their analysis each section includes a general introduction to a body of knowledge that reflects current research and detailed introductions to particular documents throughout the book there are provocative discussion questions and suggestions for further reading and other resources each section features links to other parts to encourage interdisciplinary reflection the final section on ethics addresses the difficult questions raised by genocide the holocaust and other genocides is designed as a model for flexible innovative teaching about this complex subject it is also a sophisticated interdisciplinary effort to create the conditions for discussing and understanding

the genocides of the twentieth century

james tent recounts how these men and women from all over germany and from all walks of life struggled to survive in an increasingly hostile society even as their jewish relatives were disappearing into the east it draws on extensive interviews with twenty survivors many of whom were teenagers when hitler came to power to show how half jews coped with conditions on a day to day basis and how the legacy of the hatred they suffered still lingers in their minds

the disintegration of the soviet bloc has given rise to a chauvinistic nationalism and its corollary of virulent antisemitism as well as denigration or outright denial of the holocaust
