the increasing investment in scientific knowledge in its production distribution and reproduction is acquiring greater social significance everything that is regarded as knowledge in society has become a legitimate subject matter for academic investigations from various disciplines and for practitioners

we know facts but we also know how to do things to know a fact is to know that a proposition is true but does knowing how to ride a bike amount to knowledge of propositions this is a challenging question and one that deeply divides the contemporary landscape a critical introduction to knowledge how introduces outlines and critically evaluates various contemporary debates surrounding the nature of knowledge how carter and poston show that

situating the debate over the nature of knowledge how in other epistemological debates provides new ways to make progress in particular carter and poston explore the question of what knowledge how involves and how it might come apart from propositional knowledge by engaging with key epistemological topics including epistemic luck knowledge of language epistemic value virtue epistemology and social epistemology new frontiers for research on knowledge how are also explored relating to the internalism externalism debate as well as embodied and extended knowledge a critical introduction to knowledge how provides an accessible introduction to the main arguments in this important and thriving debate suited for undergraduates and postgraduates in philosophy and related areas a strength of the book is its methodology which places a premium on placing the debates over knowledge how in a broader conversation over the nature of knowledge this book also offers an opinionated discussion of various lines of argument which will be of interest to professional philosophers as well

a first of its kind this ground breaking book combines print and interactive resources that provide nursing students with the most effective learning experiences leadership in nursing consists of chapters that emphasize interactive learning by interweaving internet based activities to encourage student involvement and critical thinking leadership in nursing principles and practices is the first resource that combines the most up to date leadership and management content with interactive application based activities ensuring that nurses are prepared to lead and manage in today s healthcare environment

excerpt from critical science of knowledge a critical exposition it would be too much to say that no system of philosophy can be understood till it is believed it is at least true however that no system can be understood until belief in it is seen to be possible i shall therefore identify myself as closely as possible with the work before us making the freest use of the material furnished by fichte and seeking to make its reasoning seem conclusive where that is possible and plausible where plausibility is all that can be hoped criticism will not be introduced in the course of the discussion except in cases where a process of thought may be better understood by its aid a brief criticism will however be added at the close of the work which may perhaps sufficiently indicate the limitations of fichte s philosophy about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
