the minimum of time with maximum efficiency this book explains fundamental concepts and contains advice on correct techniques this new edition is substantially revised volume 1 isbn 04556217696

advanced topics in information resources management is a series of books that features the most current research findings in all aspects of information resources management from successfully implementing technology change to understanding the human factors in it utilization these volumes address many of the managerial and organizational applications and implications of information technology in organizations advanced topics in information resources management volume 5 is a part of this series advanced topics in information resources management volume 5 provides information technology researchers scholars educators and practicing managers with the latest research on managing the technological organizational and human aspects of information utilization and management this volume presents current trends and challenges in implementing and strengthening information resources strategies in organizations worldwide

no organization made up of human beings is immune from the all too common meeting gripes those that fail to engage those that inadvertently encourage participants to tune out and those that blatantly disregard participants time in the surprising science of meetings steven g rogelberg draws from extensive research analytics and data mining and survey interviews to share the proven techniques that help managers and employees change the way they run meetings and upgrade the quality of their working hours

reflecting cutting edge scholarship but written for undergraduates new directions in interest group politics will help students think critically about influence in the american political system there is no shortage of fear about the special interests in american political debate but reliable information about what interest groups do who they represent and how they influence government is often lacking this volume comprised of original essays by leading scholars is designed to summarize and

explain contemporary research that helps address popular questions and concerns making studies accessible to undergraduate students and providing facts to buttress informed debate the book covers the mobilization of interest groups their activities and their influence each chapter briefly reviews research on a central question of scholarship before focusing on a particular empirical project designed to shed light on the topic rather than simply providing a descriptive overview the chapters are designed to foster critical thinking by getting students to assess the role of interest groups in the american political system and supplying evidence of their effects importantly a set of web resources associated with the book offer instructions for research and writing assignments students will be able to collect and analyze data on campaign finance lobbying and interest group involvement in governance the resource website includes materials for several classroom simulations such as an interest group legislative battle a netroots convention and a rule making process as they read about key questions in democratic government and current research trends students can practice serving as interest group activists and conduct original research on topics that most interest them

first published in 1961 this more comprehensive sixth edition covers technological and legislative developments newsletters and three new chapters volume 1 deals with voluntary associations topics include staging meetings procedures standing orders shareholders meetings and miscellaneous issues with examples further reading and index the author is a consultant and teacher on business matters who has held executive and presidential positions in insurance and security analysis his books include the retirement handbook
