one of the fascinating aspects about hold em is its dual nature the game is both incredibly simple and incredibly complex if you ve watched any world poker tour wpt broadcast you ve heard hold em described as a game that takes a minute to learn and a lifetime to master that is really true and a large part of the appeal of the game is that you can sit down and learn how to play almost immediately however after playing a bit you become aware that hold em has many layers each more complex than the previous one the deeper you develop your understanding of the game the better your results should be the best thing for you is this most players never work to develop their games what they know about the game is strictly what they draw from their personal experience at the table much of which they don t properly interpret in fact they often misinterpret their experience in counterproductive ways
